## SEEN and HEARD ON MAIN STREET

**Philosophy**

Men are not always what they think they are. But what they think, they are.

Percy Whiffletree says he drinks to forget; the only thing he forgets, is when to stop.

Customer: "I want a stick, quick." Nellie, across the counter: "Yes sir, Lip, shaving, walking, shooting or gum?"

The theatre was patronized fairly well. Sometimes it was half empty, and again it was half full.

**POME**

Let's heave a sigh
For Oswald Roak—
He never knew his
Brake was broke.

"If of nervous temperment," writes a motor expert, "you must be prepared to go through a great deal while learning to drive a car" Including possibly, the windshield.

Judge McDona.d: "You say the officers arrested you while you were quietly minding your own business?"

Prisoner: "Yes, your honor!"

Judge: "You were attending to your own affairs, making no noise or disturbance of any kind."

"None whatever, sir."

"What is your business?"

"I'm a burglar."

Cockney woman( charged with assaulting her husband): "I asked 'im if he loved me, an 'e was so long thinkin' about it that I 'it 'im with a mop."

Lena Genster had quit looking for the Ideal Man, and is now in search of a husband.

The professor who sent his wife to the bank and kissed his money goodbye was not so absent minded, at that.

You can lead a horse to water
But you cannot make him drink;
You can elect a man to office
But you cannot make him think.

Robinson Crusoe must have been an acrobat, according to Percy Whiffletree's little boy. He read that on the third day Crusoe sat on his chest.

"Good cook is offered splendid view from kitchen window on main thoroughfare with constant arrests, small accident, ambulance calls and other interesting incidents at all hours of the day and evening." —Adv. in English paper.

An Irishman who worked for the city came home on evening after a very hot summer's day and began to kick at his wife for not having his supper ready.

"What do yez mane by talkin- to me that way?" she said to him. "Here I am all day slaving me health and strength away over the washtub on a hot day like this, and you down in your nice cool sewer."

Then again, says Dad Gummit, by the time you are earning enough to show the girls a good time, your wife won't let you.

The weatherman must have found one snow blanket that he forgot to give us during February.

Percy bought a used car for a song—it cost him a lot of notes.

## Stuart Johnston Heads Senior Class This Year

### Lillie Dillard Salutatorian—Nineteen On Graduating List This Year.

With the issuing of report cards and the beginning of the final quarter of the school term, graduation honors were tabulated. It was found that highest honors the past four years were won by Stuart Johnston, who will be this year's valedictorian. Lillie Dillard won second honors and will be salutatorian.

Commencement exercises for the class of nineteen will be held May 27 at the school gym. Members of the graduating class this year are Lloyd Elmgren, Virginia Evensen, Clare Gates, Gladys Griffiths, Eileen Gustafson, Bert Hasselberg, Leroy Jungblom, Elmer Leonard, Tommy Loop, Jean McPhaden, Jean Mitchell, Eudine Prater, Myra Pressentin, Eleanor Reynolds, Raymond Ross, Arabella Solomon, Anna Young and the two honor students.

**Students Will Speak**

Graduation exercises will follow the custom that has proved so popular for the past three years. Only student speakers will appear on program. In addition to the valedictorian and salutatorian two other speakers will be selected by a vote of the class and another two by members of the faculty. The speakers will be announced later.

Members of the class are now busy with final details of their high school career, the 1937 annual, and social events scheduled for the coming month.

The big social event, other than baccalaureate, and commencement is the Senior Ball to be held tomorrow evening at the school gym. Admittance is by invitation only. Al Widekamp's orchestra has been secured for the evening.

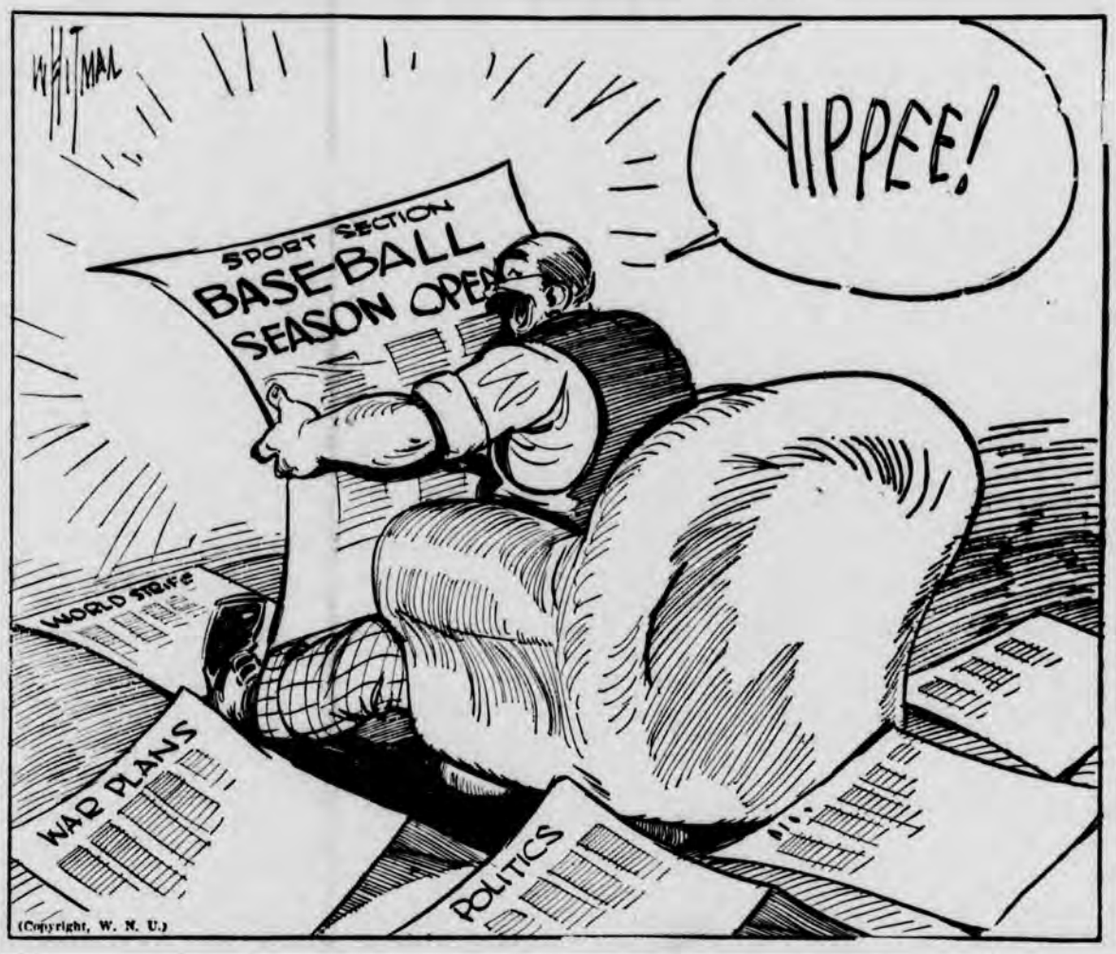
## The Sedative



## Concrete Wins First Hamilton Ball Game

In spite of a light shower during the afternoon the Concrete high school baseball team opened the county season Monday by defeating Hamilton 6 to 4. The game was all Concrete's until the latter part of the game when errors gave the Hamilton boys the opportunity to nearly overtake the local boys.

The big feature of the contest was the pitching of John Whitehair who allowed only three hits during the game and struck out 14 men. The Hamilton pitcher was touched for 9 hits and only seven Concrete boys struck out.

The next game of the schedule is set for tomorrow afternoon on the local field Mt. Vernon is the opponent. No scores have been received as to previous games of the Mount Vernon nine, but rumor has it that they are good.

## Put Anderson Will Play At Rockport Gym Dance

Rockport will take on a festive air Friday evening, when Put Anderson and his orchestra appear at the Rockport gym to open what is hoped to be a series of the popular Rockport dances.

Regular prices will prevail and a fine time is promised.

## Skagit Men Fail To Get On State Game Board

Fred J. Martin and former Commissioner L. Glenn Davis of the state game board, were left out in the cold last Sunday when Gov. Martin named three new members to the state game board. Martin and Davis were both seeking the post left vacant when Davis' term expired.

The new members are Harry Le Gear of Port Angeles; Lou Ovendon of Wenatchee and Dr. H. C. Nickelsen of Tacoma. They will replace Davis, C. A. Stapleton of Omak and the late Capt. H. D. Hinckley, who died last February.

The announcement was a great disappointment to sportsmen here as Skagit county is now without representation on the board.

## State Has Lake Shannon Timber For Sale Soon

Among parcels of timber on state lands to be sold April 27th and May 11 by Land Commissioner A. C. Martin, are eighty acres of timber near Lake Shannon. This bit of timber is appraised at $10,218 and will be sold at the May 11 sale.

Other timber for sale includes a section near Shelton appraised at $10,554 and 120 acres near Piedmont in Clallam county, appraised at $13,329. All will be sold to the highest bidder.

## Fishing Season To Open This Sunday

Whatever the weather this coming Sunday the upper valley is sure to be mecca for hundreds of fishermen, who will come to this district to try their luck on the first day of the trout season.

Grandy Lake, as usual will be most popular. For the past few years this spot has not been so good, few limit catches being made in the early season, but on its old reputation the lake still draws a record crowd every year and it is expected to do the same Sunday. All boats on the lake have been rented in advance.

Everett Lake, Baker Lake and Lake Shannon will also be visited by a number of fishermen. Due to the steady rain for the past few weeks all creeks will probably be too high for effective angling.

The Skagit river continues to be the ideal spot for the steelheader, many limit catches being reported by local fishermen.

Closed waters for trout fishing in the upper valley this year include Illabot creek, Illabot Lake, Jug Lake, Slide Lake, Lake Springsteen and the waters of the Skagit from Ruby creek to the Canadian border.

## Pea Moth Quarantine Is Revised For This Year

The new pea moth quarantine has been revised somewhat from last year. The new quarantine does not require the signing of permits by growers, which was in the regulations last year.

The same area will be involved in the new quarantine which provides for no seed peas or vetch to be grown in the infested portion of Skagit county This area includes the county from a north and south line west from Concrete to salt water.

This does not mean that people cannot grow garden peas or vetch in this area. They are just urged to cooperate and harvest their peas or vetch prior to the ripe stage.

## To Hold Old-Fashioned Bible Drill At Church

An old fashioned Bible drill will be part of the program at the Mt. Baker Presbyterian church next Sunday evening. Rev. Snowden has arranged to offer several nice gifts to those who take part.

His sermon subject for the evening will be "The Book Nobody Knows." As usual a number of specially prepared musical numbers will round out the evening.

## Fifteen Years Ago In Concrete

**Concrete Herald, April 22, 1922**

Concrete is certain of having a first class baseball team for the playing season of 1922, for the team is already lined up and ready to go. Last week a drive was made to raise funds to purchase uniforms and equipment for the team and met with great success It was estimated that about $300 would be needed and when the Superior Portland Cement company headed the contributions with $100 the rest was quickly forthcoming. At the organization meeting of the club C. D. Stickley was unanimously chosen to manage the team again this year. Albert Lisherness was again elected treasurer.

• • •

Funeral services for Joe Cugini, the young Italian who was killed last week at the Superior plant, were held in the Catholic church Sunday afternoon with Rev Father Murtaugh in charge. Joe Cugini was killed Monday when he was caught under a heavy mass of concrete which he was undermining for the purpose of placing a blast and which slid in on him. He was about 25 years of age and is survived by a wife and young child in Italy. He came to the United States about a year ago, coming direct to this city, and was making plans to bring his family here.

The propsition to pave Main street to connect up existing pavement, which was voted down by a small margin last year, will again be submitted to the people of the city for approval. A special meeting of the city council was held Monday evening, with all members present, to consider a new estimate of cost, prepared by C. P. Watkins, an engineer in the employ of the Portland Cement association. His figures place the cost at $15,488.20. The estimate filed by Engineer Armstrong placed the cost at over $19,000.

## Opening Dinner Meeting Of Local Boosters Club

### Booster Club Will Hold First Regular Banquet Tuesday Evening—Martin To Talk

Next Tuesday evening, April 27, the Concrete Booster club will hold it's first "dinner meeting." This is to become a regular feature of the booster program and will be in the nature of a social meeting. Regular business meetings will be held as usual each month also.

The meeting Tuesday will be held at Bud Thompson's Cafe. As it is necessary to know how many to plan for, all persons wishing to attend are asked to notify the Herald office by Monday evening. Dinner will start at 7:00.

As the main speaker of the evening the program committee has secured Rep. Fred J. Martin, who will choose his own topic. Fred is an able speaker and is sure to have something of interest to present.

A program of entertainment is also being aranged to fill out the evening.

**Everyone Welcome**

Membership in the Booster Club includes every person interested in civic affairs and the Cascade Day celebration, the meeting is open to everyone. The plan is to create better fellowship and more interest in the aims of the Booster club and to give the organization a social as well as business angle.

## CAR WRECKED WHEN DRIVER MISSES TURN

A small Ford truck, driven by Clifford Page was badly wrecked Tuesday evening when the driver mistook a wide place in the road for the truh-off to the Faber ferry and ended up among the stumps in the ditch. Page, who was accompanied by Alvin Godfrey, was driving from Concrete toward the ferry after dark and turned off the highway just a few yards this side of the ferry road. Both boys were badly shaken up and were taken to the hospital for examination. No further word as to their condition has been heard.

The car was badly smashed, one fender, windshield and top were caved in and other parts bent and broken.

## Local Women Start New Dress Shop In Bank Bldg.

The Dot & Helen Dress Shop, a new firm for Concrete under the direction of Mesdames Dorothy Sheik and Helen Dwelley, will open for business Saturday. The dress shop will be opened in rooms upstairs in the State Bank building.

The proprietors have purchased a fine stock of "Rosalie" silk frocks and "Bobbie Lou" house dresses for their opening and intend to add to their stock as business demands. An effort will be made to keep pace with newest fashions and provide the women of the upper valley an ideal shopping place for dresses.

## Upper Valley Awakes To Snow Storm Yesterday

The residents of the upper valley were surprised, not to say exceedingly irked Wednesday morning as they awoke to find the ground covered with nearly ah inch of snow and flakes still falling. The unusual bit of weather did not last long, however, as by noon the snow in Concrete had completely vanished.

At Marblemount a double portion was reported.

## Power For Marblemount Will Be Ready Soon

The Puget Sound Power & Light company, who has been installing a power line from Rockport to Marblemount, has completed setting the poles and is now engaged in stringing the wires. Electric power and light will be available to residents of this district for the first time when the work is completed.

Due to the undeveloped country in which Concrete is situated all efforts for progress and improvement seem to begin with roads. The latest and best idea since the Cascade program was started is the plan to open up the best skiing country in the Northwest, the Mazama basin and this side of Mt. Baker. Experts have passed upon the statement just repeated—all that it lacks is a road upon which the thousands of skiers and tourists can reach it. The road can be easily built from present Baker Lake road and once the road is open the development will come like magic. The plan is now in its formatlve stages, just an idea, but investigations are being made and it may soon become a major project for Concrete. Keep it in mind.

Next Monday news flash! Six hundred and twenty-one fishermen report they would have caught the limit if they had taken the right kind of leader along; nine hundred are sure the one that got away was at least "t-h-a-t long"; two local residents say that Lake Grandy is not yet warm enough for swimming; and three or four "fools for luck" did come home with a full creel.

Both candidates for a position of the state game commission failing to make the grade with Governor Martin puts Skagit county in a bad spot. One of the best hunting and fishing districts in the state and not a bit of representation from this section.

The benefit dance for the ball team netted the boys close to $40. With this start it should not be hard to raise the $200 needed to put a team in the field and keep it there all season. Kick in, you baseball fans.

Attend the Booster Club dinner Tuesday night and get acquainted with your fellow townsmen. You may meet some pretty nice fellows.

It's getting so strikes hardly make the front page anymore. That means they are nearly over.

of W. R. Wells to the office, so the matter should now be settled for four years As Mr. Wells had been serving as chief deputy in the county treasurer's office, the appointment left another vacancy. Vernon Schacht, an ex-service man of Burlington, was appointed by the commissioners to fill this job.

Rev. T. J. Walker, formerly of Los Angeles, who recently accepted a call to the pastorate of the Lyman and Concrete Baptist churches, arrived last week to take up his work and preached his first sermon here last Sunday evening. He will reside at Lyman and will conduct services here every Sunday afternoon and in Lyman Sunday evenings. He is an able speaker and has a pleasing personality.

The spelling team of the seventh and eighth grades of the Concrete school went to Rockport yesterday afternoon, April 28th, to spell against the boys and girls of that school and won a decisive victory, only one member of the Concrete team having been spelled down. The Concrete team had already won from the Van Horn and Grasmere school, and the Rockport team had defeated the other districts in the upper valley, so the victory gives Concrete the right to represent this end of the county at the county contest to be held in Mount Vernon next month.

## ROCKPORT GRANGERS HOLD FINE MEETING

The Rockport Grange held an interesting meeting Friday evening at the school gym. On account of the severe weather conditions this was the first meeting in three months, and the members welcomed the opportunity to get together again. Three visitors from outside Granges were present, Mr. Wisner from Tacoma, Mr. Lloyd from Sedro-Woolley and Mr. Smith from Birdsview. Each gave a very interesting talk. Master Fred Martin also interested the crowd by reviewing the work done at the recent session of the legislature.

A diversion of the evening was the cutting and serving of a beautiful birthday cake, presented by Mrs. Carl Olson to Martin Pressentin on his seventeenth birthday. The next meeting will be held on Friday, April 30th.

## Birds Dogs Must Be Kept Tied Up For Few Months

It's time to tie up your bird dogs again. State game protector, Lawrence Seabury, this week asked that the public be reminded that bird dogs or dogs that chase birds must not be allowed to run at large during the months of April, May, June and July. This is the game bird hatching season and it is a misdemeanor to permit dogs to run at large.

Owners convicted are liable to a fine from $10 to $100 and dogs run the risk of being killed.

### New Lighting

Carl Monrad continued his campaign of store improvement over the past week end with the addition of a new lighting system, with large hanging globes that greatly brighten and improve the appearance of his store.

## "THE GOOD EARTH" ON SEATTLE SCREEN

The dramatic story of China's teeming millions, their struggles, their hardships and human heartbeats of this great and little known nation, has been transcribed for the screen from Pearl S. Buck's prize winning novel "The Good Earth" by Metro Goldwyn Mayer, and will be shown at the Metropolitan Theatre in Seattle as a roadshow attraction with two performances daily for one week beginning Sunday evening, April 25th.

Fruits of four years of research and preparation; of work of a film expedition that passed a year in China, filming exteriors, studying details and bringing back thousands of authentic properties, the picture, in which thousands of orientals appear is one of the most gigantic undertaking of a motion picture studio.

Paul Muni appears as "Wang Lung," the farmer, in which role he gives an outstanding performance. Luise Rainer, heroine of "Escapade" and the Anna Held of the "Great Zeigfield", plays the intensely dramatic role as O'lan.

The story deals with Wang Lung who is given a slave girl for a wife. Her devotion and tireless effort helps him to prosper. Famine in the "North" destroys all and they depart the stricken region for a southern city. An uprising makes the city a turmoil and in it the wife succeeds in getting jewels from a looted house which makes them wealthy. They return to the north to the land over which the poor farmer becomes a lord.

Then he takes another wife and apes other tricks of the rich, to find, on the death of the faithful first wife, estrangement of his son and with other evils, that his work as a simple farmer was all that counted.

## SUNDAY BEER STILL AVAILABLE IN STATE

Sunday beer and wine will continue for another month, at least. This announcement was made Friday following a restraining order issued by the Thurston county court to prevent the state liquor board from enforcing the Sunday closing law. The court ruled that the 1909 law which forbids Sunday sale of beer and wine was repealed by the state liquor act of 1933.

The liquor board has withdrawn its closing order until a court ruling on its powers can be obtained.

**1937 Ford V-8**

● If you think that "all low-price cars cost about the same" — forget it! They don't.

Ford makes a car — a 60-horsepower economy Ford V-8 — that sells from 30 to 60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!

Check delivered prices in your town and see for yourself.

● Of course, first cost doesn't prove "low cost" — you must consider operating cost also.

The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!

Owners who have driven it thousands of miles report that the Ford "60" averages between 22 and 27 miles on a gallon of gasoline.

You can prove those figures — on the open road — in a car provided by the nearest Ford dealer.

● When you've finished your personal check-up, ask yourself:

"Do I want to save money the day I buy my car and every mile I drive it?"

"Do I want a safe, roomy, comfortable car of advanced design — created from the finest materials to the highest precision standards?"

There's only one answer, of course — the 1937 Ford V-8.

Ford V-8 Prices Begin at $529 at Dearborn Factory. Transportation charges, State and Federal taxes extra

This price is for the 60-horsepower Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment, and ash tray.

$25 A MONTH, after usual down-payment, buys any Ford V-8 Car, from any Ford dealer, anywhere in the U. S.— through Authorized Ford Finance Plans of Universal Credit Co.

**DANCE EVERY SATURDAY NIGHT**
**At GLACIERVIEW HALL**
6 miles east of Rockport.

Well folks, happy days are here again for Glacierview Hall. We now have made arrangements to have Bill's Skagit Rhythm Gang for the season. I never saw the crowd enjoy themselves better. I wish especially to invite those of the old crowd that have not yet showed up. Remember, we are not allowing C.C.C.'s in uniform—if—they want to some in cives with a girl, all right. What we desire for a crowd is our old gang of young married folks that like to come and have a good time. We want you all to come and help make this weekly dance a success and I want you all to feel that this is the upper valley week end place of recreation.

**For Safety's sake PAVE THE GAPS WITH Concrete**

WHY do state highway departments warn the public: "Concrete Pavement Ends"?

Because it is universally accepted that speeds which are reasonable and safe on concrete become dangerous on other surfaces.

To save lives to prevent accidents... demand concrete *all the way*.

True and even, it has no high crown—is usable to its full width. Brakes are at their best on its gritty, non-skid surface. Its light gray color and sharply defined edges give visibility at night. Any car is a better car on concrete.

And concrete saves money for motorists and for taxpayers. Insist on concrete for your roads.

**Concrete's Resistance to Spring "Break-Ups" Worth Millions to Taxpayers Every Year**

When the frost comes out or the rain pours down, concrete pavements "can take it." They're always ready to get you through with *safety*. Even after the terrible punishment of this winter, routine, inexpensive maintenance will quickly put concrete in condition for heavy summer traffic. Aggravating detours and costly delays are avoided.
