Feathers from the Duster

By The Over-time Editor

A WEEKEND at the beach is always a must for those of us who live in the mountains. Not that you can have any more fun than spending the same amount of time loafing at home, but the atmosphere is different. Those who get bored easily call movement from place to place "a change." Therefore you should do it often, even if you don't deserve it.

And speaking of being entirely undeserving, the editor (a consistent prize winning golfer over the years) came home with WPNA summer golf trophy. The pink potty carries the names of many fine golfers of past tournaments in which he won prizes for: trying hardest, most lost balls, shortest missed putt, etc. This year the crowd was small and golfers few. Art and I played nine holes in a cold wind. He was trying out new clubs and did poorly. When the survey of WNPA golfers was made your editor admitted playing, admitted keeping no score and lying about that, he was awarded the "championship" until next year. A duffer's day in the sun—no honor, but recognition!!!

WE HEAR Concrete was the least represented at the Country Music Jamboree Sunday at the high school gym. About 300 enthusiasts from above and below showed up, had a good time, and asked for another affair like it next year.

Not on the pre-publicity program was Lou Nordbey, accordianist and Jerry Wayne, vocalist and drummer. Not showing were singers Whitey & Delores. The rest of the musicians had a great day and the four hours found few leaving before the last note. Chalk up another hit for the Community Council.

DOG POISON may be out in West Concrete. Mac McGuire lost his dog, two more were very sick the past week. Keep an eye on your pet.

AL HUNTER is the new part-time Deputy Marshal. For the up-coming 24-hour protection the phone numbers are: Police Dept. 5-2141; Marshal Joe Cartwright 5-4401; Deputy Hunter, 5-2444. Outside of town calls are to be made to County Sheriff 336-3146, or on traffic to State Highway Patrol 424-2871.

Canoeists Dumped In Skagit Make Shore

A report of empty canoes floating upside down the Skagit River in the Rockport area Saturday triggered a search by sheriff's officers, district rangers, and Concrete Marshal Joe Cartwright in a fear of drownings.

A check of two groups of young boys, 13 to 15 years old, coming down the Skagit in canoes, showed all accounted for and safe later that afternoon. Three of the boys, from a group from Canada, were located by Harry Martin of Marblemount on the south bank of the Skagit River after their canoes swamped. None of the youths were experienced in canoeing, let alone familiar with a river as turbulent as the Skagit.

Dams Helped In Last Threat Of Floods

Flood control benefits of power dams were demonstrated during the weekend of heavy rains the first of the month when Seattle City Light held back part of the flow of the upper Skagit River.

Between midnight Friday, May 31, to 6 a.m., Monday, June 3, City Light held back 112,336 acre-feet of water in Ross Lake because of the near-flooding conditions in the lower Skagit.

Power Manager Cas Bradeen reports that Ross Lake rose 9.8 feet during that period. At one time Ross reservoir received approximately a 25,000 cubic feet per second flow of water from that part of the Skagit River and its tributaries upstream of the dam. Outflow was kept down to the minimum.

Mrs. Nell Miller In Serious Crash

Mrs. Andrew Miller of Concrete was seriously injured in an automobile accident Monday afternoon at 4:20 p.m. near Bayview, west of Burlington.

Both the 1967 Oldsmobile sedan she was driving and the 1966 Dodge sedan driven by Cheryal Harrington, 18, of Oak Harbor, were totaled in the collision.

Keep It Beautiful

If America hired people for the job, it would take the largest sort of army to keep our country free of litter.

But there's no need to hire anyone. It's a job we can do for ourselves. All of us. Every family that spreads a picnic lunch. Every boatman who cruises the lakes and waterways. Every motorist who uses our roads and highways.

It is the pleasure of the U. S. Brewers Association each year to give its fullest support to the Keep America Beautiful Campaign. Remember: Every Litter Bit Hurts.

This is our land. Let's treat it right.

The emotional upheaval of the past week in a great measure explains why the American people have many of their problems. They love an excuse to display violent passions, whether it be hatred or grief, disaster or pestilence. After years of indoctrination every child learns that the only way to end a troublesome association with anyone is to kill them. All the best shows end that way. Violence of every type is not only portrayed, but actively enjoyed and demanded by more people as their favorite entertainment. Death by violence is no novelty. It is not even a novelty when the act becomes a vehicle for public demonstrations and spectacle. The dignity of death has gone the way of many other cherished customs. In its place we have substituted a contrived and artificial display that honors no one, yet condemns us all.

The world is full of people ready to offer good advice on any subject. It is also full of people who can't understand why somebody doesn't take it.

There is some talk now of what Concrete can do when the cement dust is gone to build a new image. At present the most prominent idea is to "just clean up the place." After the success of the Leavenworth promotion of Bavarian store fronts, some thought should be given to this type of remodeling. Our town will be one of the prettiest in the state with a little directed effort. Get the brain cells working.

The graduates are now out in the world looking for all those promised advantages of a good education. Most will be disappointed to find that the first thing an employer will demand is willingness to work. What you know is secondary.

This isn't such a bad world. It's just that the residents have the idea that it is a temporary abode and treat it that way.

we love to see our package empty... in its proper place

CASCADE SOUTH FORK NEWS

By Lenora Wilson

Mr. and Mrs. Jack Hempel of Fairbanks, Alaska, were Monday and Tuesday guests at the cabin. Mr. Hempel is a nephew of Mrs. Rocky Wilson.

Dinner guests on Monday were Mr. and Mrs. Morris Hald and Hattie Jennings of Mount Vernon, Mr. and Mrs. Douglas Martin and children and Mr. and Mrs. Bert Hornbeck and son of Rockport.

While it rained here part of the time and the creeks and rivers were quite high, in Eastern Washington the wind blew so hard that the gusts practically stopped the truck—as we made two complete trips trucking our horses from Moxee to Rockport. On the second trip Mr. and Mrs. J. O. Wilson had arrived at Naches. Mr. and Mrs. Wilson spent last summer here at the cabin with us.

Our grandson, Wyatt Wilson, of Naches accompanied us home to spend the summer here.

The roadway is in very good condition having been graded last week by Ralph Keller.

Our Alaska relatives were very much surprised how friendly our deer were here. They spent quite some time watching them.
