Be a booster; bury the hammer. By united effort we can make Concrete one of the best towns in the county. Try it.

THE CONCRETE HERALD

The upper Skagit valley is the land of opportunity. Its resources are unlimited, but publicity and development are needed.

Formerly the Hamilton Herald, Established Nov. 23, 1901. Oldest Paper in the Upper Skagit

VOLUME XXIV — CONCRETE, SKAGIT COUNTY, WASHINGTON, THURSDAY, JULY 9, 1925 — NUMBER 31

REGULAR MEETING OF TOWN COUNCIL WAS HELD TUESDAY

CITY HALL MATTER IS AGAIN LAID OVER—ONLY ROUTINE MATTERS ARE TAKEN UP AND MONTHLY BILLS ALLOWED.

The regular meeting of the town council scheduled for Monday night was postponed until Tuesday evening for lack of a quorum. The meeting was held Tuesday night, and the session proved rather tame, as only routine business came up for disposal. The final plans and estimates for the new city hall were not ready, so the call for bids had to go over. It is likely that a special session will be held to approve the plans and issue a call for bids.

The meeting was called to order by Councilman Ireton, who was again selected to act as mayor pro tem in the absence of Mayor Nelson. The roll call showed all councilmen present except McGovern. The minutes were read and the treasurer's report read and filed.

The various committees had nothing to report, the month of June apparently being a quiet month in city affairs. The following bills were approved by the finance committee and on motion of McDonald-Ritchie, were ordered paid:

Carl Monrad, nails, $1.97; Concrete Drug Co., fumigators, $3.60; Bud Thompson, meals for prisoners, $5; Library, maintenance, $15; Frank Hyde, work on streets, $12.50; G. L. Leonard, salary and rent, $26; Dr. E. F. Mertz, salary and fumigation, $30; Baker River Power, Light & Water Co., hydrant rental, $32.50; J. D. Owen, salary, $70; Harry Cooper, salary, night patrolman, $100; J. J. McDougall, work on streets, $110; A. W. Hallock, do, $17; Lakeside Western Lumber Co., lumber for walks, $169.40; Bond fund, R. E. L. Knapp, engineering, $9.70.

The petition of the Puget Sound Power & Light Co. for the vacation of a stub end of a street in east Concrete, which has been pending for some months, was taken up and no objections appearing to the vacation asked, the petition was ordered granted. The ordinance ordering the vacation was read and passed first reading.

The council decided to have Main street on the hill marked off for auto parking, so as to show all parking areas and to provide stalls for cars, the work to be done as quickly as possible under the supervision of the street and alley committee. The council then adjourned.

SPLENDID PICTURES AT THE THEATER THIS WEEK

The Concrete theater offers a wide variety in photoplay entertainment during the coming week, and every picture is well worth seeing. For Saturday night the feature will be Charles Ray in "Dynamite Smith", a thrilling drama that starts on the Barbary coast in San Francisco and winds up in the wilds of the Yukon. This is one of the best pictures that Ray has made, and his supporting cast includes such stars as Bessie Love, Jacqueline Logan and Wallace Beery. On Sunday and Monday nights Owen Moore, Sylvia Breamer and Sidney Chaplin are featured in "Her Temporary Husband," an interesting comedy-drama that has both laughs and thrills.

On Tuesday and Wednesday nights Harry Carey will be seen in "Roaring Rails," in which this popular western star exchanges his bucking bronco for a plunging locomotive. There are plenty of exciting situations and the story is one that will hold the interest from start to finish.

On Thursday and Friday nights House Peters and Patsy Miller are featured in "Head Winds," adapted from the story by A. W. Wilt. It tells of a wilful man who kidnapped a beautiful little spitfire who hated him and made her love him. There are some wonderful scenes of seafaring life in this picture, including a thrilling wreck scene. -1

Objection Sustained

PUGET SOUND CAMP IS INTERESTING TO VISITORS

A representative of The Herald decided to make a trip to the big camp of the Puget Sound Sawmills & Shingle company over the week-end, and the trip proved an enjoyable surprise from the start to the return to this city. The trip to the camp was made in the company's speeder, and the first thrill came in viewing the building of the Stone & Webster dam and other activities in the Baker river canyon, and in addition the scenery along the river in itself would be worth the trip. After crossing the Baker river bridge, the road winds around hills and over canyons, thru forests and open spaces, to the camp, which is located on the side of the hill many hundred feet above this city.

On reaching the camp the first impression is the wonderful view from that location. Mt. Baker, Mt. Shuksan and a large portion of Skagit county is in plain view, and in every direction except directly up the hill back of the camp, you are looking down on the world from the camp

While the camp is not in operation just now, there is plenty of interest around the camp for the casual visitor. The machinery and logging equipment is still on the ground, and while you cannot see it in operation just now, you can easily ascertain how each logging operation is done. The principal work now under way is the construction of the new railroad from Van Horn to the camp, to replace the present railroad, which will soon be shut off by the Baker river dam, and the cutting of the timber in the area to be flooded when the dam is closed. This keeps a considerable crew at the camp and gives a fair idea of what camp life is like when there are over 150 men quartered in the camp buildings.

This write-up would not be complete without an appreciation of the camp cuisine. Judging by the meals served while The Herald man was there, the camp employes live well and have plenty of everything to eat. There was a great variety of tempting food on the table, and cooked better than any that can be found in any high-priced cafe. In fact, it is worth a trip to the camp just to get a square meal, a meal that is seldom found in this day and age.

CONCRETE PEOPLE ARE MARRIED IN MT. VERNON

Mrs. Emma Johnson and Victor L. Engstrom, both well known residents of this city, were united in marriage in Mt. Vernon Saturday. After a short wedding tour, they returned to this city and will make their home here. Their many friends in this city are extending congratulations.

CONCRETE YOUNG LADY IS HURT IN AUTO ACCIDENT

Miss Ann Wallace, proprietor of Anne's Shop in this city, was considerably bruised and cut and her sister, Miss Mildred Wallace of Mount Vernon, received a broken leg, in an automobile accident on the Pacific highway near Fir last Friday evening. The car in which they were riding was driven by C. G. Campbell of this city, and was forced into the ditch by a wild driver who was weaving in and out of the traffic during the rush on the highway. Mr. Campbell was not injured, but the car was almost a total wreck. Miss Wallace was able to return to this city the first of the week and is apparently none the worse for her exciting experience.

OFFICERS FIND BIG STILL AND BOOZE NEAR HAMILTON

Some of Sheriff Conn's deputies made a visit to A. E. Hunt's small sawmill, located on the south side of the Skagit river between Birdsview and Hamilton, the latter part of last week and made one of the biggest booze hauls ever made in the county. A still with a capacity of 400 gallons a day was found beneath the floor of the mill, being operated by steam from the mill boilers. There was a large amount of mash on hand and plenty of evidence that the plant had been operating to full capacity for some time. A few days later another search was made and 20 barrels of about 50 gallons each, filled with moonshine, were found buried on Hunt's farm. Hunt was tried the first of the week and fined $1,000 with a three months' jail sentence, and his son was fined $250 and costs.

SEDRO-WOOLLEY WOMAN MURDERED BY HUSBAND

Mrs. Nellie O'Neill, aged about 60 and a cripple, was beaten to death by her husband as she lay helpless in bed last Saturday evening. She was found dead in bed by a neighbor Sunday forenoon, badly bruised and cut about the head, arms and shoulders, and a heavy cane, with which she had apparently been killed, was lying beside the bed. Her husband, William O'Neill, was arrested in Sedro-Woolley shortly afterwards, and it is said that he was very drunk when arrested.

An inquest was held in Mt. Vernon Tuesday afternoon, and the cororer's jury found that the woman's death had been caused by a blunt instrument in the hands of her husband.

POLICE COURT IS KEPT BUSY AFTER THE FOURTH

The police court of the city was kept busy for several days after the Fourth in adjusting penalties for violations of various ordinances during the celebration of the holiday. C. L. Wagner, superintendent of the Superior Company, and who strongly recommended the passage of an anti-fire-cracker ordinance while serving as mayor of the city, had the honor (?) of being the first victim of the ordinance, which was passed last winter. In entertaining some youngsters he became too enthusiastic and was exploding firecrackers with a vim when the police force arrived and told him to see the judge. He admitted his error and considered the fine of $25 and costs as reasonable enough. J. Moore, a newcomer in the city and who did not know of the ordinance, was the only other violater arrested. He was picked up after shooting one firecracker and paid a fine of $5 and costs.

Two speeders and a number of plain and fancy drunks made up the rest of the Fourth of July docket. All made small donations towards the cost of the new jail, and probably considered the celebration worth the price.

GREAT NORTHERN RUNS A SPECIAL TRAIN ON FOURTH

As the construction camp of the Stone & Webster company, employing over 1,000 men, closed down for the Fourth, and with most of the crew going to Seattle and other cities to celebrate, the Great Northern ran a special train between this city and Seattle to handle the crowd. The train pulled out from here Friday evening with six coaches, and all well filled, and the crowd returned here on the same special on Sunday evening, reaching here about midnight. The regular train handled a large passenger business over the holiday, and the Concrete-Sedro-Woolley autostage line also had a record business during the period, running double-headers on almost every trip.

FIRE WARDENS ASK PUBLIC TO HELP PREVENT FIRES

Fire wardens, forest rangers and all others charged with the duty of preventing forest fires, are asking the general public to help them with this work. The continued warm weather of the past few weeks have dried out the weeds and underbrush and a careless match or cigarette might start a fire that would spread over several acres in a half hour and quickly get beyond control.

FOREST SAWMILL IS DESTROYED BY FIRE TUESDAY MORNING

MILL IS TOTAL LOSS IN BLAZE OF UNKNOWN ORIGIN—LOSS ESTIMATED AT ABOUT $10,000 —LOCAL HELP GIVEN.

The mill of the Forest Mill company, located at the rock cut, about three miles west of this city, was totally destroyed by fire of unknown origin early Tuesday morning. The fire was first discovered about 1 in the lathe room and the crew was immediately summoned to fight the fire, but before the men could reach the mill the fire had spread like a flash through the fine sawdust in the mill and the entire mill was a mass of flames. Help from this city was summoned to assist in saving adjoining buildings and to keep the fire from spreading to the green timber. Many men from this city went down immediately and played a large part in saving some of the mill property and checking the spread of the fire.

The fire warden's forces was also called on for help and responded with two of the portable pumps used in fighting forest fires. These did not reach the mill until about 3 o'clock and it was then too late to be of any help at the mill, but the pumps soon put an end to the fires spreading thru the underbrush to the woods and the other buildings after they got into action.

Besides the mill, the office building and all the lumber stored in the yards were destroyed. The mill had been enjoying a good business for the past few months and the amount of lumber on hand was considerably less than the average kept on hand. It is also reported that several box cars on the spur track were destroyed. By hard fighting the fire was kept from spreading to the bunkhouses and the cottages occupied by the employes of the mill. The loss is roughly estimated at between $10,000 and $15,000. A small amount of insurance was carried, but not sufficient to begin to cover the loss. No statement has been made yet by the officials of the company as to whether not the mill would be rebuilt.

In order to arouse enough men in this city to go to the fire to help keep it from spreading, the fire whistle was blown, and there was a lot of curiosity in the city in regard to the location of the fire. However, the fire alarm accomplished the purpose for which it was intended and soon got plenty of fighters to the mill.

The Forest mill was built a few years ago and was practically a new plant. During the past few months a new planer and other new machinery had been installed and the capacity of the plant considerably increased. The mill was one of the important industries of the upper valley, and the people of Concrete and vicinity are hoping that the owners decide to rebuild the mill.

FOURTH OF JULY PASSES QUIETLY IN CONCRETE

Although the Fourth of July is nationally considered a noisy holiday, it did not prove so in Concrete this year, but rather was the quietest day of the year. With more than half of the people of the city celebrating at out-of-town points, and those who remained at home taking a rest, there was very little evidence of activity in town. Even the ball game in the afternoon was quiet, the game being spoiled from a rooting standpoint in the first two innings.

Of those who left town to celebrate, the Canadian cities of Vancouver and Victoria attracted the largest part. The city was also well represented at the celebrations held in Anacortes and Everett, and all who went to those cities returned well satisfied with the entertainment provided. Various beaches along the sound and camping places on the upper Skagit were also well patronized over the week-end.

CONCRETE PLAYERS GET EVEN BREAK IN HOLIDAY CONTESTS

LOCAL GANG IS PROPERLY TRIMMED SATURDAY BUT CAME BACK AND WON EASILY SUNDAY—BURLINGTON NEXT.

The two Fourth of July contests scheduled for this city last Saturday and Sunday between the Green lake Commercial club aggregation of Seattle and the Concrete bunch, proved to be two one-sided contests, with a complete reversal of form for both teams over night. On Saturday the Concrete machine with three or four important cogs missing, was completely outclassed and the game proved to be only a good batting practice for the visitors. The scorekeeper wore his pencil out before the game was over and the exact score is not known, but those who tried to keep track of the runs say that it was around 40 to 2 in favor of Seattle. The Concrete team did everything wrong and with several of the regulars missing out of the line-up, it never got into action. They could not field and Jimmy Hyllengren on the mound for the Green Lakers would not let them hit, so they just filled out the team while Green Lake scored runs at will. Hedlund, who started in the box for Concrete, had an off day, and with the support that was absolutely rotten, he gave up in disgust after a few innings, and after that almost every man on the team took a hand at pitching, and Green Lake treated them all alike.

On Sunday afternoon there was a different story. The Concrete gang had all the regulars back into the line up and every player was mad clean through over the exhibition of the day before. They started after the Green Lake gang at once and soon piled up a safe lead, and for awhile it looked as if they would score as many runs as Green Lake did Saturday. However, the visitors settled down and played ball, and there was little scoring during the last half of the game, the final score being 13 to 6 in favor of Concrete. The Seattle boys appeared to be as badly outclassed Sunday as did the local gang Saturday. Many of the fans believed that Sunday's game would be a repetition of Saturday's fiasco, and stayed at home, but those that took a chance were given an enjoyable surprise.

Batteries—Green Lake: Snyder, Haraton and Alexander; Concrete—Earl Lewis and Stafford.

Another close and exciting game is expected Sunday afternoon when the Burlington team will be here for the second time this season. The Burlington team gave Concrete a good walloping early in the season and the home team will be out for revenge Sunday. Burlington has a remarkable record this season, having won 20 out of 24 games played. Lewis will again be on the mound for Concrete and either Daniels or Chase will pitch for Burlington, so there should not be much hitting. The game will start at 2:30 and every real fan in the city will be on hand when play starts.

POWER COMPANY MAKES IMPROVEMENTS IN ROAD

The Stone & Webster company is making some considerable improvements in the road in east Concrete, to the general benefit of the people using the road as well as to the company. A concrete retaining wall is being built along the cut on the west side of the road from the end of the Baker river bridge to connect with the short section of wall built last year. This job is well under way and will likely be comple ted in another week. The wall will protect the pavement from sliding, and will also protect the company's railroad from being closed by slides. The pavement has been widened in several places, some grading has been done, and the road fixed up in general. When this work is done, the road will be in better shape than at any time since the company started operations on the east side.

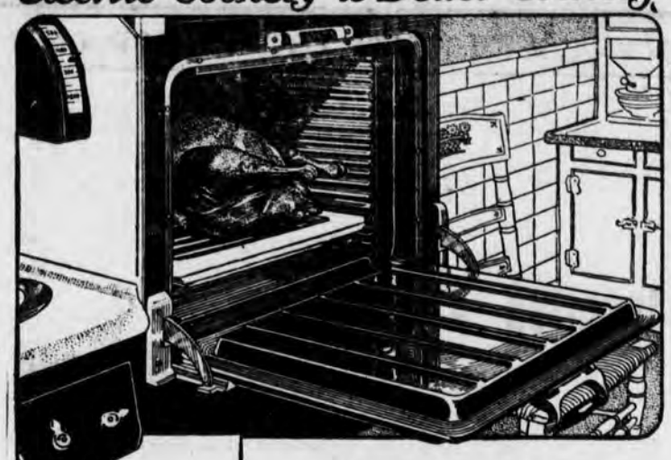
Electric Cookery is Better Cookery



"OVERSIZED" OVEN with SHELF DOOR

HOTPOINT Electric Ranges have "oversized" ovens that will easily accommodate a 25-pound turkey or an extra large dinner. The counterbalanced shelf door opens and closes at a touch, and, when open, serves as a shelf, indispensable in handling hot pans.

A Kitchen Range that's Superhuman
—It Never Fails nor Forgets

NO longer is it necessary to stay in the kitchen to watch the cooking—to watch the fire so it doesn't undercook one minute and burn the next, to keep basting your roasts, to stick a straw in the cake now and then to see if it is done—continually opening and closing the oven door, changing the oven temperature and making the kitchen hot, smoky and unpleasant.

The electric range has eliminated all this! All you do is put the food in the oven, set the Electric Timer, which, without watching will turn the current ON and OFF automatically at just the right time, and set the Heat Control, which will accurately and evenly maintain any desired oven temperature. You can go away and forget it, returning just in time to serve the hot, perfectly-cooked meal you will find waiting.

It's economical, too. So much of the cooking is done on stored heat. And clean!—pots and pans never get burned or stained, as there is no dirt, smoke, or soot. Your kitchen and curtains are always clean and inviting. Come in and see the many styles we have to offer, and find out how greatly this modern range will lighten your kitchen tasks.

Serial No. 05003

NOTICE FOR PUBLICATION
Department of the Interior
U. S. Land Office at Seattle, Wn.
May 25, 1925.

NOTICE is hereby given that Irene May Connally, whose post-office address is Concrete, Wash., did, on the 25th day of September, 1924, file in this office Sworn Statement and Application, No. 05003, to purchase the NE¼ of the NE¼, Section 7, Township 36 N., Range 9 E., W. Meridian, and the timber thereon, under the provisions of the act of June 3, 1878, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisement, and that, pursuant to such application, the land and timber thereon have been appraised, at a total of $245.00; the timber estimated 300,000 board feet at $.75 per M, and the land , $20.00; that applicant will offer final proof in support of his application and sworn statement on the 15th day of August, 1925, before the Clerk of the Superior Court, at Mount Vernon, Wash.

Any person is at liberty to protest this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office, alleging facts which would defeat the entry.

IRVING D. SMITH,
Register.

May 28 to July 23.

FLOYD H. ROLLER

PERMANENT ROADS ARE A GOOD INVESTMENT —NOT AN EXPENSE

NOW IS THE IDEAL TIME TO BUILD MORE PAVED HIGH-WAYS

There is not a single community in the United States that does not need a greater mileage of permanently paved roads.

16,000,000 motor vehicles are now using our highways for business and pleasure. They are packing the paved roads in already congested areas, as well as over-running regions until recently considered remote. And they are pounding to pieces all but permanent roads.

Even though a number states have made good progress in building Concrete Roads, their present permanently improved mileage is entirely inadequate, as every motorist knows.

Meantime, while the building of permanent highways lags, the production of motor vehicles is increasing the present total at the rate of 4,000,000 a year!

Sooner or later this gap must be closed. Why wait?

Not in a long time have general conditions been so favorable for carrying on such public works as permanent highway building, thus assuring tax-payers more for their money.

Now is the ideal time to extend both street and road programs!

Ladies' Auxiliary meets on first and third Thursdays of each month.
All are cordially invited to attend these services. Strangers in town always welcome.

CONCRETE DRUG COMPANY

Inactive Kidneys Cause Disease

Too much and too little work have about the same effect on persons past middle age. Proper action of the kidneys is necessary to good health. They act as a filter and remove from the blood poisonous waste matter, which, if permitted to remain in the system, leads to many complications.

Many nervous, tired, run-down men and women suffer from pains in the back and sides, dizzy spells, bladder weakness, sore muscles and stiff joints, and fail to realize that rheumatism, diabetes, or even Bright's disease may result.

If you have cause to believe that your kidneys are weak, disordered, or inactive, you should act immediately.

De WITT'S
KIDNEY & BLADDER PILLS

have benefited thousands and have been used by young, middle aged and old, with complete satisfaction. They act quickly and surely and have given relief in cases of years standing.

DeWITT'S KIDNEY & BLADDER PILLS are put up in two sizes, 50 cents and $1.00 per bottle for sale by
