Be a booster; bury the hammer. By united effort we can make Concrete one of the best towns in the county. Try it.

THE CONCRETE HERALD

The upper Skagit valley is the land of opportunity. Its resources are unlimited, but publicity and development are needed.

Formerly the Hamilton Herald, Established Nov. 23, 1901. Oldest Paper in the Upper Skagit

VOLUME XXIV | CONCRETE, SKAGIT COUNTY, WASHINGTON..THURSDAY, SEPTEMBER 3, 1925 | NUMBER 39

EVERYTHING READY TO OPEN SCHOOL ON TUESDAY MORNING

CLEANING UP AND MOVING HAS BEEN THE ORDER OF THE WEEK—RECORD ENROLLMENT EXPECTED FOR FIRST DAY.

When the school bell rings next Tuesday, summoning the youngsters of Concrete to school after a vacation of three months, the teachers and pupils will find everything ready to start work. The work done in and around the school buildings this summer has left plenty of cleaning up to be done, and this has been under way all week. There was also a lot of moving and changes to be made to provide room for the two new teachers, and Supt. Bolton has had personal charge of this work, with a corps of high school boys as his assistants. The work has been going ahead rapidly and it will all be done before school starts. The only unfinished jobs around the school plant when school starts will be Leonard Everett's painting contract and George Clinchard's job of installing heat in the gym building. However, this work has progressed to a point where neither job will interfere with the school.

All the teachers are expected to return to town Sunday, and on Monday afternoon a teachers' meeting will be held at the school house to make a tentative draft of the program and to talk over plans for the year. All teachers are expected to be present at this meeting. School proper will open Tuesday morning, and every youngster who expects to attend school here this year, whether in the grades or in the high school, is urged to be present on the opening day, so that classes can be arranged, programs prepared and all get an even start on the work. Where a pupil waits a week or a month to start school he will be behind the others of his class, and hold them back until he gets caught up. All new high school students should arrange to meet Supt. Bolton before school opens and plan the course of study to be taken.

The manual training department has been moved to the library building on Main street, and much new equipment has been added. Supt. Bolton and a flock of boys have been busy moving the benches and tools and installing the equipment in the new location. The janitor has been putting in the week scrubbing and oiling the floors, washing windows, and moving and installing desks and seats.

Indications are that the enrollment next Tuesday will show a big increase over the opening day last year. It is likely that the high school will show the largest gain, as there were only four graduated last year, and all the rest of the old students are expected to return. There will be a large freshman class, and about a dozen boys and girls from outside districts have stated their intention of attending school here this year.

PUGET SOUND CAMP WILL START AGAIN NEXT WEEK

The Puget Sound Sawmills & Shingle company's camp near this city is expected to resume logging again early next week, after having been closed down for the greater part of the summer. The new railroad from Van Horn to the camp is now about completed, and it is believed that by the end of this week the last of the track will be in place and trains running over the road. Preparations are now under way for starting up the camp, and everything is about ready to start logging as soon as the railroad is finished. It will take a few days to get things to running smoothly after the long shutdown, but it is likely that the camp will be shipping logs on regular schedule before the end of next week.

Loaded With Sunshine

TOWN COUNCIL TO HOLD MEETING MONDAY NIGHT

The next regular meeting of the town council will be on next Monday evening, September 7, and the session promises to be a busy one. It is expected that a final decision on the building of the city hall will be made at this meeting, and the budget for 1926 will be up for adoption. Several other interesting items are scheduled to come up, and the monthly bills will be considered. All persons having claims against the city should have them filed before this meeting, or they will go over until October.

COUNTY JAIL PRISONERS ENTERED PLEAS MONDAY

All the prisoners held in the county jail awaiting trial were brought before Judge Joiner Monday morning, formal charges read and pleas entered, in preparation for the next jury term of the superior court, which is expected to start about October 1. There were thirteen prisoners in all, and all entered pleas of not guilty. There are two men in jail charged with first degree murder, William O'Neill of Sedro-Woolley, charged with murdering his wife on July 4, and Joe Disantis of this city, charged with the murder of Earl Brammell. There is only one other case from this end of the county, a bootlegging charge from this city.

REBEKAHS TO ENTERTAIN AT CARD PARTY SATURDAY

The women of the Concrete Rebekah lodge will entertain at a card party in the I. O. O. F. hall next Saturday evening, and indications are that there will be a large crowd present. From 8 to 10 o'clock cards will be played, and then the floor will be cleared, and those who care to dance will be given a chance to show their skill. Music will be furnished by a new local organization known as the Mystery orchestra. A feature of the evening's entertainment will be a fine supper to be served by the Rebekahs.

EAGLES INITIATE

The Concrete Eagles held a big class initiation in the I. O. O. F. hall last Thursday evening, with one of the best turn-outs of the summer in point of attendance. About a dozen or more new candidates were initiated, and were given the full work of the lodge. A membership campaign is now on and another large class will be adopted within the next few weeks.

GRASMERE SCHOOL OPENS WITH LARGE ENROLLMENT

The Grasmere school opened its new term last Monday morning with the largest enrollment in the history of the school. Extra seats and text books had been provided in anticipation of an increase in attendance, but the opening day found every seat filled and then some more. The exact enrollment has not been ascertained, but it is believed to be around 75, as both rooms are filled to capacity. The school this year is in charge of Edgar Stonehouse of Sumas as principal, with Miss Nellie Black of Edison as teacher of the primary grades.

THIRD SUMAS ROUND-UP STARTS NEXT SATURDAY

The third annual round-up for the city of Sumas will start next Saturday morning, September 5, and will continue for three days. Plans have been made to make this affair the best of the three, and it is expected that all attendance records for the city will be broken. Many of the best cowboys and riders in the Northwest will be on hand to participate in the events, which include races and stunts of all knds. Liberal purses are offered, and it is certain that all the events will be closely contested. Many auto parties from this city and vicinity are planning to drive to Sumas for the week-end to take in the rodeo.

FIRE MENACE ABOUT OVER FOR THE PRESENT SEASON

The danger of forest fires is believed to be about over for this season and most of the fire guards have been called in. Many of the larger fires in the valley are still smoldering in spite of the rains, and a few watchmen are continued on duty in case a few days of warm weather would start the fires spreading again. A week of real warm weather would dry out the brush again and new fires could be quickly started. However, it is not expected that there will be much warm weaher from now on, and it is likely that all fire wardens will be released in a few weeks.

BUYS LOCAL PROPERTY

Jos. Fessler of Moss Hill, who is becoming a large holder of Concrete real estate, closed a deal the first of the week for the purchase of the William Hilton property in East Concrete. The property consists of a handsome cottage and a well improved lot, and is considered a fine home property.

CONCRETE THEATER HAS FINE PROGRAM FOR WEEK

The Concrete theater has scheduled a fine program of photoplays for the coming week, all being feature pictures with plenty of variety. For tomorrow night there will be an added feature in a number of home talent acts by Concrete youngsters. There will be songs, dances and vaudeville sketches, prepared by children under the direction of Mrs. Harry Patten. This part of the program starts promptly at 7:15, and will be followed by the pictures.

Saturday night Dorothy Dalton and Jack Holt will be seen in "The Lone Wolf," a crook drama adapted from the book by Louis Joseph Vance. There is plenty of mystery and thrills and some of the most exciting situations ever shown in pictures. For Sunday and Monday nights the attraction will be the Maurice Tourneur production, "Jealous Husbands," starring Earle Williams and Jane Novak. It is an unusual drama of married life that is worth seeing.

Tuesday and Wednesday nights the feature will be "Barbara Frietchie," based on Whittier's famous poem. There are some wonderful scenes of Civil War history and the picture ranks as one of the good ones of the past year. The cast is headed by Florence Vidor and Edmund Lowe.

Thursday and Friday nights Jack Hoxie, the popular Western star, comes in "Flying Hoofs," an exciting drama of the western cattle ranges. The Universal Ranch riders are featured in the photoplay and help to make this picture a real western.

FUNERAL SERVICES HELD FOR SAM BUFFO SUNDAY

Funeral services for Sam Buffo, who was killed at the Stone & Webster camp on August 22, were held at the Catholic church in this city Sunday afternoon, the church being filled by friends who came to pay their last respects. The services were in charge of Rev. Father Murtagh of Sedro-Woolley. At the close of the impressive service interment was made in the Forest Park cemetery.

TRIPLETS ARE BORN AT MOUNT VERNON HOSPITAL

The first triplets to be born in Skagit county in many years were born to Mr. and Mrs. Carl Shapley of Big Lake at the Mount Vernon hospital Monday. There were two boys and a girl. The girl weighed 3¼ pounds and the boys 3½ and 4 pounds The larger boy died at the age of 16 hours, but the other two are reported to be getting along fine.

COUNTY ROAD FROM HERE TO HAMILTON IN BAD CONDITION

MUST BE FIXED BEFORE WINTER TO BE KEPT PASSABLE—AUTOISTS FIND IT ONE OF WORST IN STATE.

People who have occasion to do much traveling over the county highways of the upper Skagit valley are beginning to worry about the condition of the road between this city and the end of the pavement below Hamilton. Although there has not been enough rain yet to thoroughly wet the road, it is already showing millions of ruts and chuck holes, and indications are that one week of heavy rain will make the road almost impassable. It is said that there has been no practically no work on this road this season, although it is one of the most heavily traveled in the county. The gravel surfacing is wearing through in many places, and the ordinary travel over the highway will quickly make it hub-deep with mud in many places.

The people who must use the road regularly through the winter, whatever its condition, are urging the county commissioners and road supervisors to give it a thorough overhauling during the few remaining weeks of good weather, so as to get it in fair condition before rainy weather starts. Any considerable delay now in getting this work started will mean extra expense in keeping the road open next winter. A dollar of preventive work now will save ten dollars of repair work after the road is damaged.

Autoists who have traveled thousands of miles through the different western states during the summer are unanimous in saying that one of the worst pieces of road encountered on the trip was between Concrete and Hamilton. This road used to be one of the best dirt roads in the county, but continuous heavy traffic with no maintenance work will quickly wear out any dirt or gravel road. It would take much less money to keep such a road in condition than it takes to repair it after it is worn out.

The county roads east of this city are said to be exceptionally good for this season of the year. There has been considerable work done in the upper valley during the summer, and these roads should be in good condition through the winter months. However, the traffic over these roads is very light compared with that over the road west of town.

WILL HAVE BENEFIT SHOW FOR LIBRARY ON FRIDAY

Mrs. Fredereka Wolfe, librarian of the Concrete public library, assisted by several others who are interested in the welfare of the library, are preparing a benefit show to be given at the Concrete theater next Friday night, September 11. In addition to the regular picture show for the evening, there will be five or more home talent vaudeville numbers by local artists, including songs, instrumental selections, dances and comedy sketches. The vaudeville program starts promptly at 7:15.

The proceeds of the show will be used to buy new books for the younger patrons of the library. The library is fairly well provided with fiction for the adults, but the children's books have been so widely read that they have been read to pieces, and some new books in this department are urgently needed. The only income of the library for the purchase of books is from the pay shelf and a few fines. Tickets will be sold through the city during the coming week, and it is hoped that all will give a generous response to the appeal of the library for assistance.

There are many people who are taking advantage of the library, and the number of patrons is steadily increasing. During August there were about 500 books borrowed from the library, which is about the best record for a month since the library was established.

LIGHTING SYSTEM OF ENTIRE CITY IS NOW BEING REBUILT

NEW LINES BEING INSTALLED TO BETTER SERVICE—LOWER RATES GO INTO EFFECT ON FIRST OF THIS MONTH.

For the past month the Puget Sound Power & Light company has had a crew of about twenty men busy on overhauling and rebuilding the lighting system of the city, and the work is now nearing completion. A considerable change for the better is already noticeable in the lighting service, and when the work is finished Concrete will have as fine a light and power system as any city of its size in the state.

All the old poles that were showing any signs of decay have been removed and replaced with new poles, and all the sound ones have been overhauled. New cross arms and insulators have been installed on every line in town, and heavier wiring has been installed on nearly every line. On a few of the shorter service lines the old wiring has been retained, but all the primary lines and main feeders have been given much heavier wires, sufficient to carry any load that may be required.

High voltage primary lines have ben run to every section of the city, and pole transformers installed at convenient places to reduce the current to the service lines. Formerly the only high voltage line ran to the sub-station on Baker street, and nearly all the feed lines were overloaded. Under the new system the primary lines carry 2,300 volts, which is ample to provide plenty of light or power to any part of the system. When the new system is entirely installed there will be a steady and regular flow of current, and the annoyance of alternate bright and dim lights will be eliminated. There is some slight interference with the service while the rebuilding is going on, the current being shut off occasionally for an hour or so, but it will be found worth while in the long run.

New city lights and fixtures are being installed this week, and it is expected that this work will be about completed by the end of the week. It is expected that there will be considerable improvement in the street lighting when the new lights are all in place.

In addition to better service, the people of Concrete will receive a reduction in rates, effective September 1. This reduction was announced some months ago and amounts to half a cent on the basis rate, the base for household service being reduced from 9 cents a kilowatt to 8½ cents. The rate reductions and the improved service will both be duly appreciated by the customers of the company.

CONCRETE STORES WILL BE CLOSED ON LABOR DAY

Next Monday is Labor day, a legal holiday, and in addition to the bank and post office, all the business houses will close for the day to give the bosses and clerks a day off. As near as can be learned, all the stores will be closed all day, so the housewife is urged to order enough eatables Saturday to last over until Tuesday morning. There will be no celebration or formal observance of the day here.

HAMILTON CHILD DIES AFTER SHORT ILLNESS

James Richard Wild, the five-year-old son of Mr. and Mrs. William Wild of Hamilton, died at the Burlington hospital last Saturday after an illness of a few days. He had been slightly ill for a few days, but his condition did not appear serious until Saturday, when he was rushed to the Burlington hospital, and died just as he reached the hospital. Funeral services were held at the Hamilton church Tuesday afternoon, with burial in the Hamilton cemetery.

FLOYD H. ROLLER

PERMANENT ROADS ARE A GOOD INVESTMENT —NOT AN EXPENSE

NOW IS THE IDEAL TIME TO BUILD MORE PAVED HIGH-WAYS

There is not a single community in the United States that does not need a greater mileage of permanently paved roads.

16,000,000 motor vehicles are now using our highways for business and pleasure. They are packing the paved roads in already congested areas, as well as over-running regions until recently considered remote. And they are pounding to pieces all but permanent roads.

Even though a number states have made good progress in building Concrete Roads, their present permanently improved mileage is entirely inadequate, as every motorist knows.

Meantime, while the building of permanent highways lags, the production of motor vehicles is increasing the present total at the rate of 4,000,000 a year!

Sooner or later this gap must be closed. Why wait?

Not in a long time have general conditions been so favorable for carrying on such public works as permanent highway building, thus assuring tax-payers more for their money.

Now is the ideal time to extend both street and road programs!
