Formerly the Hamilton Herald, Established Nov. 23, 1901. Oldest Paper in the Upper Skagit

The upper Skagit valley is the land of opportunity. Its resources are unlimited, but publicity and development are needed.

VOLUME XXVI.

CONCRETE, SKAGIT COUNTY, WASHINGTON, THURSDAY, JANUARY 13, 1927

NUMBER 5

COUNTY CLUB ASKS STATE FUNDS FOR CASCADE HIGHWAY

WANTS LARGE APPROPRIATION FOR UPPER SKAGIT ROAD AND WILL SEND DELEGATION TO LEGISLATURE.

At the regular monthly meeting of the Skagit County Chamber of Commerce, held in Anacortes Tuesday night, with nearly every community in the county represented, the leading item of business was the consideration of plans for pushing work on the Cascade highway, and the meeting went on record as being in favor of the largest appropriation possible for this highway.

David McIntyre of Sedro-Woolley, president of the Cascade Highway association was present and gave a talk outlining the work accomplished to date, and urging that the county send a delegation to Olympia to work for this road. He was ably seconded by Dave Donnelly, also of Sedro-Woolley, and R. V. Welts of Mount Vernon also made a speech in favor of the proposition, and presented a resolution putting the chamber on record as requesting the Skagit county delegation in the legislature to work for an appropriation commensurate with the importance of this highway, and the resolution was passed unanimously. A delegation will be sent to Olympia at once to present the merits of the Cascade road to the roads and bridges committees of the legislature. Mr. McIntyre called attention to the fact that although the Cascade highway was one of the first established in the state, only \$90,000 had been appropriated for the road so far. He pointed out that it was likely that the next step in the construction of the road was the building of a bridge across the Skagit at Marblemount. It is estimated that this bridge will cost about \$75,000, of which the county will pay a portion. The last legislature made an appropriation of \$70,000 for this road, and it is hoped that this can be substantially increased. Every community in the county is backing the project, and is working in every way possible to have the road completed.

The chamber also sponsored a bill, to be introduced in the legislature, taxing freight and passenger busses, based on a mileage basis. The bill was drafted by the road committee of the chamber, and provides that all taxes collected, above expenses of administration, shall be returned to the road and bridge funds of the various counties. The bill will be forwarded to Olympia for introduction in the legislature.

The chamber accepted the invitation of the LaConner Commercial club for the holding of the March meeting in that city.

SCHOOL VOTERS APPROVE ADDITIONS TO GYMNASIUM

The special election held here Monday afternoon for the purpose of validating work done in enlarging the scope of the high school gymnasium building, resulted in a one-sided vote in favor of the additions made by the school directors. The work had been done under the assumption that no election was necessary, but the county auditor ruled that the work came within the scope of the state law requiring all new buildings or additions to be approved by the voters of the district, so the election was called in order that the board could pay for the work already done.

There was a total of 38 vote cast during the afternoon, and of these there were 36 in favor of the additions and two against. The result of the election was immediately certified to the county superintendent of schools, and a warrant for Ben N. Weaver in payment for his work has already been received.

The election board for the afternoon consisted of Mrs. Chas. Wiseman and Mrs. H. P. Swain as judges, and Mrs. Edwin L. Bolton as clerk.

Conspiracy

HOLYFIELD CHILD DIES AFTER A SHORT ILLNESS

Hobart Marvin Holyfield, the three-year-old son of Mr. and Mrs. C. H. Holyfield, passed away in the Burlington hospital Tuesday afternoon after an illness of only a few days. He was taken ill about Sunday with intestinal trouble, and on Tuesday morning it was decided to take him to a hospital for treatment. He was taken to Burlington, but it was found that nothing could be done, and he died within a few hours after reaching the hospital.

Funeral services will be held in this city tomorrow afternoon at the Presbyterian church, the services starting at 2 o'clock. After the service burial will be made in the Forest Park cemetery at Grasmere.

The little lad was the only child of Mr. and Mrs. Holyfield, and was born in this city in March, 1924. He is survived by his parents, his grandparents, Mr. and Mrs. W. H. Biggerstaff, and other relatives here. The bereaved relatives have the sympathy of the community in their loss.

STOCKHOLDERS OF BANK HOLD ANNUAL MEETING

The annual meeting of the stockholders of the State Bank of Concrete was held the first of the week with nearly all stockholders present. The usual reports were read and showed that the work of the institution for the past year had been very satisfactory and the officials were commended on the fine showing made. A dividend of twelve per cent on the par value of the capital stock was declared, and the old board of directors, consisting of John C. Eden, C. L. Wagner, Geo. A. Campbell, W. D. Ross, Richard Thompson, Dudley I. Green and Harold E. Thompson, was re-elected.

Later the directors held a meeting and re-elected the following officers: President, George A. Campbell; vice president, Richard Thompson; cashier, Walter D. Ross. John C. Eden was re-elected as chairman of the board of directors.

STUDY CLUB MEETING IS POSTPONED TO NEXT WEEK

The meeting of the study department of the Concrete Women's club, which was announced for this afternoon, has been postponed for one week, and will be held next Thursday, January 20. This meeting will be held at the home of Mrs. W. E. Woodworth, and the program will be the same as announced last week.

BOY SCOUT OPERETTA IS POSTPONED FOR A WEEK

On account of the death of little Hobart Holyfield, a near relative of one of the members of the cast, the operetta, "The Four Leaf Clover," which was scheduled to have been given tomorrow night under the auspices of the Concrete troop of Boy Scouts, has been postponed for one week. The operetta will be given on Friday night, January 14. All tickets sold will be good on the new date, and as the youngsters who are taking part in the production will have another week for rehearsals, the show should be even better than on the original date. There are about forty youngsters who are taking part in the production, and it promises to be exceptionally good. The operetta is being directed by Mrs. J. W. Applegreen, with Mrs. Harry S. Patten in charge of the music.

SKAGIT VALLEY FARMER PASSES AWAY AT HOME

George Fred Moore, a well-known farmer of the Sauk district, passed away Sunday afternoon after a long illness. Funeral services were held in Mount Vernon Tuesday, with Rev. W. S. Thorndike of this city and Rev. Mr. Holland of Seattle conducting the services. Burial was made in the Mount Vernon cemetery.

Mr. Moore was 56 years old and had lived in this county for the past 25 years, and had been a resident of Sauk for the past six years. Previously he lived at Clear Lake and at Mount Vernon. He is survived by his wife and seven children, three sons and four daughters, all of whom reside at Sauk, with the exception of one daughter in Alaska.

BOTH LOCAL SHOE SHOPS ARE MOVED DURING WEEK

There are two excellent shoe repairing shops in this city, and both changed location during the past week. The first of the week E. W. Brown, who has been located in the Miller building, across the street from the drug store, moved to the room formerly occupied by E. L. Warden-dyke in the Ross building, the room being the one adjoining the Middleton & Milton hardware store.

As soon as Mr. Brown had completed his moving, J. B. Parsons, proprietor of Dad's Shoe shop, who has been located in the old building near the depot, on Aldridge street, decided that he wanted to move up town, so he rented the room just vacated by Mr. Brown, and is now established in his new location.

PARKS IS TRANSFERRED AS FOREST SUPERVISOR

Harry Parks, who has been supervisor of the Mount Baker national forest for many years with headquarters at Bellingham, has received notice that about February 15 he will be transferred to the Olympic national forest, where he will have charge of some important timber sales. Mr. Parks is well known in this city, and all his old friends are wishing him success in his new field. He will be succeeded by Lawrence B. Pagter, who has been supervisor of the Colville national forest with headquarters at Republic. Robert L. Campbell, assistant supervisor at Bellingham, has been transferred to the Umpqua national forest at Roseburg, Oregon, effective February 1. His successor at Bellingham has not yet been announced.

FORMER CONCRETE PEOPLE MARRIED IN BELLINGHAM

Word has been received in this city of the marriage of Mrs. Dolly Garner and John H. Legert of Bellingham on Sunday, December 26. According to reports they will make their home in Bellingham. Both of the contracting parties made their homes in this city for some years, and both are well known in this city and vicinity. Their many friends here are extending congratulations.

LADIES' AUXILIARY HOLDS MEETING NEXT THURSDAY

The next regular meeting of the Ladies' Auxiliary of the Presbyterian church will be held at the home of Mrs. Edwin L. Bolton in Crofoot's addition on Thursday afternoon, Jan. 20. There will be the usual business meeting, after which there will be a social session, during which refreshments will be served by the hostess. All members are urged to attend and to bring their friends.

STATE EXAMINATIONS TO BE HELD HERE NEXT WEEK

The mid-term examinations for graduation from the eighth grade will be held next Thursday and Friday, January 20 and 21. This is the regular state examination, and pupils who failed to obtain a diploma by not making a passing grade in one or more subjects in the examination last May are eligible to write at this examination on those subjects.

SKAGIT COUNTY MEN ARE APPOINTED ON GOOD COMMITTEES

ONLY KICK IS THAT COUNTY IS NOT REPRESENTED ON IMPORTANT ROAD COMMITTEES IN EITHER HOUSE.

The Skagit county delegation in the state legislature fared very well in the way of legislative committee appointments, each member being placed on one or more of the more important committees. The only real kick registered by the delegation, when the list of committees was announced, was that Skagit county has no representation on the roads and bridges in either house or senate, although this county is vitally interested in the matter of state highways. Representative Sisson was on the house committee in the last legislature, and the county delegation feels that some man from this county should have been placed on this committee during the present session.

Senator W. J. Knutzen fared exceptionally well in committee assignments, as he was made chairman on the leading committee on dairy and livestock, and also drew a membership on seven other committees, as follows: Agriculture, dikes and drains, fisheries, rural credits and agricultural development, charitable institutions, compensation and fees of state and county officers, medicine and dentistry and pure foods and drugs.

Representative Josh Russell has no chairmanship, but he will serve on the following committees: Education, forestry and logged-off lands, claims and auditing, and congressional apportionment. The first two rank as among the most important in the house, the last two are minor committees. The people of the Skagit valley wanted to see Josh on the roads and bridges committees, but that is an important assignment for a new member to land during his first session.

Representative William Hayton got a place on the important appropriations committee and four others, as follows: Agriculture, dairy and livestock, dikes, drains and ditches, and railroads. Representative Gilkey got a place on the committees on fisheries, harbors and waterways, public utilities, and revenue and taxation.

LOCAL THEATER OFFERS FINE PROGRAM FOR WEEK

The program of the Concrete theatre for the coming week is very good, with plenty of variety and comedy pictures in the majority. Saturday night the attraction will be "Wages for Wives," an enjoyable comedy-drama based on the proper distribution of the weekly payroll between the husband and wife. It was produced by an all-star cast headed by Jacqueline Logan, Zasu Pitts and Creighton Hale.

Sunday night Norma Shearer is featured in "The Waning Sex," another fine comedy with plenty of laughs and many thrilling situations. It has a good plot, has a laugh in almost every scene, and is a picture that all will enjoy.

Tuesday night Raymond Griffith and Marian Nixon head fine cast in "Hands Up." This also is a fast and exciting comedy-drama, in which Griffith plays the part of a Confederate spy during the Civil war, in which he is seen hobnobbing with Abraham Lincoln, several noted generals on both sides, and even with Sitting Bull, the famous Indian chief. By actual count there are 4,213 laughs in this picture, but few movie fans will find any time for counting.

Thursday night comes the great railroad drama, "The Runaway Express," adapted from the novel, "The Nerve of Foley," by Frank H. Spearman. It is a drama of railroad life, with a lot of thrills and excitement and many spectacular scenes. The cast is headed by Jack Daugherty, Tom O'Brien and Blanche Mehaffy.

CONCRETE TEAMS HAVE MANY GAMES DURING PAST WEEK

FOUR GAMES PLAYED DURING WEEK BY SCHOOL BASKETBALL TEAMS—TOWN TEAM IS ALSO ON THE PROGRAM.

The various basketball quintets of the city saw plenty of action during the past week, the grade school teams, the high school teams and the town team checking up a total of six games, of which the official record shows that Concrete won four and lost two.

The grade school games were played against the Van Horn teams, and were pulled off last Friday afternoon. To start the afternoon, Van Horn forfeited both games to Concrete, as the up-river school did not have enough grade players to make the required teams; then the teams went ahead and played exhibition games. The Van Horn girls, playing three high school pupils against the Concrete grade girls, and the Van Horn lasses won easily, the score being 35 to 1. The Concrete grade boys won from the Van Horn boys, although several high school boys played on the latter team, and won by the easy margin of 15 to 7.

The high school teams went into action Friday evening against the LaConner teams in the first conference games of the season. The first game was between the second teams of the two high schools, and was won by Concrete by the score of 18 to 0. Joe Bitonti was high scorer for the local team with 7 points, closely followed by Edmondson, who scored 6. The game between the first teams was won by LaConner by the margin of 28 to 16. The visitors showed the better teamwork and outclassed the Concrete boys in almost every department of the game. The best basket shooters for the evening were Edmondson for LaConner, who checked up 19 points for his team, and "Chuck" Scales for Concrete, who tallied 12 of the 16 points made by his five. The high school teams will journey to Hamilton tomorrow night for conference games, and have hopes of winning both contests.

The town team journeyed to Rockmond Saturday evening and took the worst beating of its career. The only alibi the team has to offer is that the players were chilled by the long ride and were unable to get warmed up before the game started. However, they appear to have had an off night, and the Redmond five won by the wide margin of 48 to 16. Last night the local town team played the Hamilton town team here, and the result showed that the players were back into their normal stride again, as the scorebook shows 37 points for Concrete to only 13 for Hamilton.

OFFICERS INSTALLED BY CONCRETE ODD FELLOWS

The main item of business before the regular meeting of the Concrete lodge of Odd Fellows last night was the installation of officers for the current term. The officers who will preside over the destinies of the lodge for the term are: Noble grand, Merlin Leonard; vice grand, Ed E. Brown; secretary, Lem L. Brown; treasurer, Nels N. Steen; warden, C. A. Groken; conductor, H. O. Stiles; R. S. N. G., George Powell; L. S. N. G., Floyd H. Roller; R. S. V. G., A. M. Jungblom; L. S. V. G., A. Martin; inner guard, C. T. Jungblom. Several of the officers, including the chaplain and outer guard, were not present, and will be installed at a later meeting.

The installation was first planned for last week, and there was a large turnout for the meeting. But as neither the new noble grand nor the new vice grand were present for installation, the ceremony had to be postponed. However, a fine lunch, arranged for the occasion, was given attention, and all present enjoyed a fine time.

ROCKPORT

Mr. and Mrs. Earl W. Arlin and children of Concrete were calling on relatives and friends here Sunday afternoon.

Robert Coletrane was attending to business matters in Burlington Saturday afternoon.

R. Wilson of Marblemount was transacting business and calling on friends here Sunday.

Jack Kinkade of Sedro-Woolley spent the week-end her visiting at the home of his grandmother, Mrs. W. H. Stafford.

William Prossatin was looking after business interests and greeting friends in Concrete Sunday.

Miss Bessie Stafford and Jake Stafford motored to Concrete Friday evening for a short visit with friends.

Misses Marie and Marell Shular of Concrete were visiting with home folks here over the week-end.

Edward Presentin was looking after business affairs and calling on relatives at Marblemount Saturday.

Carl Bertleson was transacting business in Concrete Saturday.

Mrs. M. M. Rose is spending several days this week in shopping and visiting friends in Bellingham.

Henry Gay of Seattle spent Thursday in town visiting with relatives and friends.

Mr. and Mrs. Jack Snyder were greeting old friends at Marblemount Sunday afternoon.

Mr. and Mrs. Harry Wainwright of Sauk were visiting relatives here Friday.

Mr. and Mrs. M. J. Dalton, who have been making their home here for the past two years, left recently for Everett, where they will reside.

Delias Hooper was visiting with relatives and friends in Concrete over Sunday.

Mrs. F. Morrison and son, who have been residents of Rockport for the past three months, left the first of the week for their old home in Stanwood.

Mr. and Mrs. James Craton and children moved their household goods here from Anacortes the first of the week to make their home here. They are occupying the cottage recently vacated by Mr. and Mrs. M. J. Dalton.

Dexter Cook and son Frank were greeting friends in Concrete last Friday evening.

David O'Connor of Concrete was visiting relatives and friends here over Sunday.

Miss Nellie Hooper was visiting relatives and friends in Concrete over the week-end.

Mr. and Mrs. E. W. Cronkrite of Bellingham were calling on friends here and at other points in the upper valley Sunday.

BIRDVIEW

Mr. and Mrs. T. A. Dorgan visited in Concrete Sunday.

Mr. and Mrs. Earl Rowley visited with relatives in Bay View over the week-end.

Mr. and Mrs. Nick Stephens attended the funeral of Mrs. Benson in Sedro-Woolley last Thursday.

The W. C. T. U. met with Mrs. M. J. King Thursday afternoon. The subject for the meeting was, "Legislation." Mrs. Carl King gave an interesting paper on "Social Morality." The hostess served a lunch to the members at four o'clock.

Mr. and Mrs. Tom Brayton were Sedro-Woolley visitors Saturday.

Mrs. Leslie Savage and Mrs. Alice McDonald were visiting friends in Bellingham Monday.

Mr. and Mrs. Carl King visited with Mr. and Mrs. Lawrence Burnes in Sedro-Woolley Saturday night and Sunday.

Mrs. Al Gentry entertained a number of her friends at her home Wednesday afternoon. The afternoon was spent in playing cards. The hostess served a dainty lunch to her guests.

Emil Balzar and Bob Johnson attended a dance in Sedro-Woolley Saturday evening.

Mrs. A. A. Good and children of Concrete were guests of Mr. and Mrs. Carl Russell Saturday.

Tom Savage came up Saturday from Seattle to visit his parents, Mr. and Mrs. Ira Savage.

Carl Russell returned Saturday from a week's timber cruising with his father, Dave Russell, at Machias.

Miss Ethel House of the Rock Cut was a guest of Mr. and Mrs. T. A. Dorgan Sunday.

ORDINANCE NO. 94

AN ORDINANCE fixing the compensation of the town treasurer of the Town of Concrete and repealing all ordinances and parts of ordinances in conflict herewith.

Be it ordained by the Council of the town of Concrete, Washington:

Section 1. That the compensation of the town treasurer of the Town of Concrete, Washington, is hereby fixed at the sum of Two Hundred Dollars (\$200.00) per year, payable monthly.

Sec. 2. All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Sec. 3. This ordinance shall be in full force and effect from and after the first day of January, 1927.

Passed by the council this 3rd day of January, 1927.

Approved by the mayor this 3rd day of January, 1927.

C. D. STICKLEY, Mayor.

G. L. LEONARD, Town Clerk.

No. 05016 (Republication)
NOTICE FOR PUBLICATION

Department of the Interior,
U. S. Land Office at Seattle, Wash.,
December 31, 1926.

Notice is hereby given that Ellen C. Brach (formerly Ellen C. Burnham), whose post office address is Bucoda, Wash., did, on the 22nd day of October, 1924, file in this office Sworn Statement and Application No. 05016, to purchase lot 7 and NW 1/4 SW 1/4 sec. 5 and lots 1, 2 and 3, section 8, township 34 N., range 10 E., W. meridian, and the timber thereon, under the provisions of the act of June 3, 1878, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisal, and that, pursuant to such application, the land and timber thereon have been appraised at a total of \$636, the timber estimated 936,000 board feet at \$636.00 and the land no value; that said applicant will offer final proof in support of her application and sworn statement on the 15th day of March, 1927, before the register at U. S. Land Office, Seattle, Wash.

Any person is at liberty to contest this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office alleging facts which would defeat the entry.

MAN OF 60 IS HELPED BY SIMPLE MIXTURE

"After taking Adlerik. I feel better than for years. At my age (60) it is ideal—so different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorn bark, glycerine, etc., which removes GAS in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste matter you never thought was in your system. Excellent for chronic constipation. Concrete Drug Co.

1. New Baker river hydro-electric plant of the Puget Sound Power & Light Company.
2. Typical sub-station for distribution of "Puget Power" current.
3. Cableship Delwood and cable-laying apparatus that connected Olympic peninsula with "Puget Power" by submarine cable.
4. Electrifying the Great Northern west of the Cascade summit.

Expansion of Huge Power System

By A. W. LEONARD
President, Puget Sound Power & Light Company

mining the Olympic peninsula with a system of inter-connected hydro-electric plants by means of two cables in respect of depth of water covered, power capacity and length of anything in submarine power transmission hitherto accomplished; a work well under way towards electrification of the Great Northern railroad west of the Cascade mountains; the establishment of two old records in electric range sales with these as outstanding features, a year just closed has marked a bright advance in the business of Puget Sound Power & Light company.

In territorial expansion, in extension of rural electrification, increase domestic consumption of electricity, facilitation of stage transportation systems and in the increase of local stockholders, 1926 has been in many respects a remarkable year.

While it is true that we acquired the companies and transmission systems merely serving the Olympic peninsula in 1925, we ourselves did not actually begin to serve the people and lands of that territory until the beginning of the present year. Some idea of the magnitude of this addition to our service area may be gleaned from the fact that the three counties affected—Clallam, Jefferson and Kitsap—embrace an area of approximately 4,000 square miles, all sparsely settled and with considerable distance between centers of population.

In addition to connecting this territory to our established power system by means of the cables referred to, we have established a seventh operating district with headquarters at Bremerton, where we have just completed a fine two-story and basement concrete office and service building. Two new sub-stations have been built in connection with the cables and a third sub-station is under construction at Bremerton. During the same time we have rebuilt both transmission and distribution systems to conform to the standards required by this company, materially increased the volume of business and slightly reduced rates for service.

In the extension of rural electrification we have set another new record for the company. During the year we have built approximately 500 miles of new rural lines giving service to about 5,000 farms hitherto without the benefits of electricity. As a result of this we are today serving more than 30,000 rural customers—a showing which cannot be surpassed by any company operating under similar conditions in the United States, and which eclipses completely, both in number of customers and in rates charged for service the achievements of the government-owned hydro-electric system operating in Ontario, Canada.

Our agricultural extension service has not only dealt with innumerable individual problems of farm electrification, but has designed and placed at the command of our customers a number of electric appliances which are being adopted in dairy, fruit and poultry farms in every part of the state.

One of the most remarkable developments of the year has been the gigantic stride in the development of electric cooking. In our 60-day spring campaign we set a world's record with the sale of 2048 electric ranges and surpassed this feat in our 60-day fall campaign with the sales of 2769 ranges. As a result of this, at the close of 1926 there are more electric ranges actually in use on our own system than there were in the entire state of Washington at the close of 1924.

Another marked advance has been made during 1926 in our stage transportation system. During the year we acquired the Olympic-Kelso and Kelso-Portland lines, which we are now in process of unifying with our Seattle-Tacoma and Tacoma-Olympia lines so as to give through service

between Seattle and Portland and the elimination of transfers.

In addition to this we have acquired the stage line operating between Seattle, Auburn and Kent and are now co-ordinating it with the Seattle-Enumclaw service so as to avoid duplications and improve transportation.

North of Seattle, we have put into one system the two stage lines formerly operated between Seattle and Everett and between Everett and Mt. Vernon and have applied to the Washington department of public works for an extension from Mt. Vernon to Bellingham. In addition to this, we have also established a through service between Seattle and Vancouver, B. C., and this, with the co-ordination of the shorter hauls just mentioned, will unify a system that cannot fail to play an important part in the development of the area affected.

Some of the features of the year in Seattle have been a material extension of our underground system; the construction of a new automatic sub-station in the Queen Anne district; an addition to the Pasadena sub-station in the University district; the completion of a new service building at the corner of Eighth avenue and Roy street and the start of construction work on our new stage and inter-urban terminal depot.

Another gratifying development of 1926 has been the great increase in the number of our local security holders. Our stock sales increased fifty per cent more than during any previous year, while the number of our security holders increased 62 per cent, bringing the total resident stockholders within the state to about 8,000, and representing every profession, trade and occupation.

While we cannot definitely state yet what our program for 1927 will be as many matters have still to be definitely decided, we know, nevertheless, that it will involve the expenditure of several millions of dollars, and that a very large proportion of this amount will be raised by the sale of our securities to local customers. It will be spent on materials bought within the state; what we accomplish will be added to the tax-rolls of the state and all go toward the development of a greater and better Washington.

PERMANENT
ROADS ARE A
GOOD INVESTMENT
—NOT AN EXPENSE

This is the Road that Gets the Traffic

No matter how many roads there are leading in or out of your town, the ones best paved get the traffic.

This is especially true if these roads are of Concrete. For every motorist appreciates the many advantages of driving over its rue, rigid, unyielding surface.

No wonder Concrete Highways are crowded for mile after mile. Sixteen Million motor vehicles are using them today. And new cars are being produced at the rate of 4,000,000 a year.

Here is a situation that is of vital concern to you. Everywhere we need more or wider Concrete Roads, or both, to take care of the ever-increasing traffic. And now is the time to plan for their construction.

Your highway officials want to be of the greatest possible service to you. Get behind them with ways and means that will provide more Concrete Roads and Streets. Such an investment will pay you big dividends year after year.
