Be a booster; bury the hammer. By united effort we can make Concrete one of the best towns in the county. Try it.

THE CONCRETE HERALD

The upper Skagit valley is the land of opportunity. Its resources are unlimited, but publicity and development are needed.

Formerly the Hamilton Herald, Established Nov. 23, 1901. Oldest Paper in the Upper Skagit

VOLUME XXVI | CONCRETE, SKAGIT COUNTY, WASHINGTON, THURSDAY, MARCH 17, 1927 | NUMBER 14

ORGANIZATION OF BASEBALL CLUB IS PERFECTED MONDAY

LORENTZEN IS AGAIN NAMED AS MANAGER — MERCHANTS TO PROVIDE SUITS--MAY PLAY SCHEDULE GAME ON CAMPUS.

A considerable number of the baseball fans of Concrete assembled at the city hall Monday night to talk over the baseball situation for the coming season, and when the meeting was over an organization for 1927 had been formed, a manager selected and several details in regard to the team had been talked over and settled.

Mayor C. D. Stickley was unanimously elected as chairman of the meeting, and Edwin L. Bolton received the same honor for secretary. The meeting opened with a free-for-all discussion of baseball affairs, but when all had been talked out the business session started with the election of a manager for the season. Andy Lorentzen received many compliments on his work as manager last year, and the fans decided to leave him in charge of the team again this year, with E. J. Collins named as assistant manager. Chairman Stickley stated that he would help the team along in every way he could, and will likely work with the gang in an advisory capacity through the season. This leaves Andy as the boss of the team, with two capable assistants and advisors, and will also give him a chance to take a trip to Vancouver, or some other point, once in a while, as he can leave Mr. Collins or Mr. Stickley in charge for the day, and will not have to worry about basball affairs while he is away.

A board of directors, consisting of Dudley I. Green, chairman; H. H. Hoover, C. L. Wagner, Bud Thompson, Brown Wiseman, Geo. A. Campbell and D. D. Dillard, was elected to look after outside business affairs of the team through the season, with power to elect a secretary and a treasurer to handle the correspondence and finances of the club.

It was decided that the team would be called the Concrete Merchants, and each merchant or business man in the city will be asked to provide one suit, with name and business shown on the back of the uniform. It was reported that about six uniforms had already been promised under this plan, and that the balance to outfit the team would be provided before the season opened. A finance committee, consisting of Andy Lorentzen, Mr. Green and A. B. Wiseman was named to look after the details of securing the uniforms. It was also agreed that the old suits be turned over to the Concrete high school for use by the school teams.

The general sentiment of the meeting seemed to be in favor of playing all games on the school grounds, provided that the old railroad grade would be removed before the playing season opened. While there would be no fences or gates on these grounds, it is believed that the attendance would be much larger and that the voluntary contributions would amount to more than the collections on the east side grounds, and the school grounds are more convenient for the fans of the city.

All the fans present seemed to be enthusiastically in favor of a good team for this season, and all wanted baseball in Concrete. The result of the meeting appears to assure regular baseball through the season, and all seem to be satisfied.

BAPTIST LADIES' AID TO HOLD MEETING TUESDAY

The next regular meeting of the Ladies' Aid of the Concrete Baptist church will be held at the church on Tuesday afternoon, March 22, starting at about 2:30. There will be a business session, during which many matters of importance to the Aid will be considered, after which a social session will be held. Refreshments will be served during the social session.

Enter—Exit

VAUDEVILLE IS FEATURE OF PROGRAM AT THEATER

The program of the Concrete theater over the week-end will be featured by a special vaudeville attraction on Saturday and Sunday nights. There will be four specal numbers, featuring songs, instrumental selections and novelties, the head-liner being Alice N. Morrison of Bellingham, a noted composer of popular songs, who will feature some of her own compositions.

The picture for Saturday night will be "More Pay—Less Work," a Peter B. Kyne story of the Cappy Ricks series. It is a story of marine and industrial life, made by a capable cast headed by Madge Bellamy and Charles Rogers.

The photoplay attraction for Sundaynight, and also for Monday, will be Mayo's comedy-drama, "Money Talks," featuring Claire Windsor, Owen Moore and Bert Roach. It is a hilarious comedy of a bluffer who got away with his bluff, with a fine romance and a lot of action mixed in with the many funny situations. Any person who likes pictures with a lot of laughs should see this one.

Tuesday and Wednesday nights Roy Stewart heads an all-star cast in "General Custer at the Little Big Horn," another of the series of American historical dramas. The action of the picture, and the scenes closely follow the actual occurrences during the Indian warfare of that period, and the picture provides both historical education and entertainment.

Thursday and Friday nights will be featured by a real Western, "Lazy Lightning," with Art Acord as the star. This is a typical drama of the Western cattle ranges, with all the rapid fire action that the description implies.

ENJOYABLE PARTY GIVEN BY CONCRETE FRESHMEN

The Freshman class of the Concrete high school entertained with an enjoyable party on Friday evening of last week, with the high school faculty and the other classes as the honor guests. A short literary and musical program was given by the members of the class, under the direction of their class advisor, Miss Dale Isabel Knowles, followed by gamesa nd other entertainment features. The party concluded by the serving of a splendid luncheon by the freshman class. The party was held in the gym building, which was almost filled for the evening, and all who were there report the best kind of a time.

FORMER ROCKPORT MAN PASSES AWAY SUDDENLY

Howard G. Christian, who recently moved from Rockport to Bellingham, died suddenly in Bellingham last Sunday afternoon. He was a fireman on the Great Northern, and was taking a walk around Burlington after completing his run. He suddenly dropped on the street, stricken by a stroke of apoplexy, and was rushed to the Burlington hospital, where he died a few hours later.

Funeral services were held at the Baker & Higley chapel in Sedro-Woolley yesterday afternoon, with many old friends from Rockport and other Skagit valley points in attendance. The funeral was followed by cremation in Bellingham.

Mr. Christian was born in Michigan in 1883, and had been a resident of this county for more than 20 years, most of the time being spent at Rockport, where he was employed as a fireman on the local branch of the Great Northern. A few months ago he moved to Bellingham and had been employed on the Coast line. He is survived by his wife, and by his parents and a brother, who live in Michigan. He made many friends in the upper valley, where he was well liked and respected, and his sudden death is deplored by all who knew him.

CONCRETE BOYS ATTEEND TOURNAMENT IN SEATTLE

Brown Wiseman, coach of the Concrete basketball team, took his players to Seattle last week to take in the closing games of the state tournament. The boys left here Friday afternoon and were able to take in the Friday evening and all the championship games Friday evening and Saturday. Almost all the boys who played regularly on the Concrete team through the season made in the trip, and all report an enjoyable time, and the coach and players say that they learned a number of fine points about basketball during the games.

COMMISSIONERS TO BAN GARBAGE ON HIGHWAYS

The county commissioners, at their last regular session, passed a resolution against the dumping of garbage along county roads. The resolution, which is published in full in this issue, makes it a misdemeanor to drop garbage along a county road and offers a reward for information leading to the conviction of anyone who is guilty of the offense. It is hoped that this practice will cease.

CONCRETE WOMEN'S CLUB TO IMPROVE CLUB ROOM

The Women's Community club of Concrete, which was organized some months ago, has secured the room formerly used as a manual training room in the old school building for use as a club room for its metings, and agreed with the school board to improve and fix up the room at its own expense. The women of the club havealready cleaned up the room and have calcimined and decorated it, and have other plans in view to make it an attractive meeting place for the club and a central place to entertain visitors. Fine window boxes have been installed on the outside, made by the manual training class of the school, and the club wishes to extend thanks to Supt. Bolton and the boys for this addition to their rooms. The work in the building has been done by members of the club and by other volunteer workers.

The school board reserved the right to use the room at any time for school purposes, and any improvements made will revert to the benefit of the school in case the room should be needed for immediate purposes.

The club also plans to improve the grounds around the building, including the library room, by installing flower beds and improving the grounds. It is expected that this building and its grounds will be an attraction to the city when the work is completed.

HIGH SCHOOL JUNIORS TO ENTERTAIN WITH VODVILLE

The Junior class of the Concrete high school will entertain the patrons of the school, and all others who care to come, with a vodvil show at the high school gymnasium tomorrow night, March 18, and they are promising some of the finest entertainment ever given under the auspices of the school. The program will include a splendid one-act comedy, an old-fashioned minstrel show, a Hawaiian singing and dancing act, a gypsy number in costume, featuring songs and dances, a number of solo and duet vocal and instrumental numbers, many specialties and novelties, and some surprise features. The program is a dandy and any person who attends is certain to receive good value for his admission fee. The proceeds will be used to pay the expense of decorating the hall and other expenses of the graduation exercises of the 1927 class, and the balance, if any, will be used for other school purposes. The evening show will start about 8 o'clock, and there will be a matinee in the afternoon for the children and any others who cannot conveniently come in the evening.

WORK STARTED ON GRADING STREET TO CROFOOT ADDITION

STREET WILL BE GIVEN GRADUAL GRADE FROM END OF PAVEMENT TO FOOT OF HILL. DONE IN TEN DAYS.

Actual work on the improvement of the road to Crofoot addition, from the end of the pavement on Garden street to the foot of the hill, was started the first of this week, after having been a subject for discussion at council meetings for several years. The work is being done by Cecil Phillips and Charles Paine, who were awarded the contract for the work at the last meeting of the council, and they have an ample crew of men on the job to finish it well within the time limit of twenty days.

The work will start at the south end of the pavement in Garden addition and will continue to the first cross-street in Crofoot's addition at the foot of the hill. The road will be widened to fourteen feet or more for the full distance, giving autos a chance to pass at any point on the road, and the new grade will give a gradual slope from the end of the pavement to the end of the grade, a distance of about 400 feet. The old road is full of bumps and hollows, and there is a maximum cut of about three feet at one point on the road, with an average for the full distance of between one and two feet. There will be a fill of about three feet made in front of the Freeman place in Crofoot's addition to even up the grade, and thee balance of the excess earth will be used to widen the road at the lower end. The work when completed will give an excellent road to the south end addition, and one that will be ample to care for all traffic from that part of town for many years to come. The road may need a surfacing of some kind before next winter, but it will undoubtedly be in better shape than for many years past, and after this work is completed there will be vry little money needed for maintenance.

A concrete culvert is being installed at the lower end of the road to care for drainage water, and rebuilding a a small part of the sidewalk and crossings may be required on account of changes in grade. The work has been needed for a long time and is much appreciated by the people who will be benefited.

BRIDGE TEA PLANNED FOR CONCRETE WOMEN'S CLUB

The Concrete Women's Community club will give a bridge tea at the home of Mrs. E. F. Mertz in East Concrete Thursday afternoon, March 24, for the purpose of raising funds for the improvement of the club rooms and for the entertainment of the members and visitors. Arrangements have been made to accommodate at least sixty women during the afternoon, and plans have been made to provide whist tables for those who have not been initiated into the mysteries of bridge. Tickets for the party may be had by applying in person or by telephone to Mrs. Mertz or to Mrs. J. W. Applegren.

HAMILTON DRUG STORE UNDER NEW MANAGEMENT

The Hamilton drug store, which has been operated by James H. Smith for over 35 years, changed hands last week. Jim Smith did not sell out, but he decided he was tired of the drug business and turned the store over to his daughter, Miss Emma Smith, who has been chief clerk for some years. Miss Smith is a graduate of the department of pharmacy of the University of Washington and is fully qualified to handle the business. Mr. Smith will take a well-earned rest, after which he will devote his time to his real estate and timber interests.

SKAGIT COUNTY GETS $250,000 FOR ROADS FROM LEGISLATURE

CASCADE ROAD ALLOWED FULL AMOUNT OF $150,000—MOUNT VERNON VIADUCT AND PACIFIC HIGHWAY FAVORED.

Skagit county highways fared even better than was expected at the recent session of the legislature. At one time it seemed that the county would be practically passed up when it came time for the passing around of appropriations for highway construction, but the county contingent in the legislature sat tight during the verbal battles during the closing hours of the session, and when results were checked up it was found that the delegation from this county had landed almost everything asked for.

The Skagit county senator and representatives entered the session with a determination to try to land an appropriation of at least $150,000 for the Cascade highway. This was the amount specified in the bill passed by the house, but the senate road bill cut the amount to $25,000, on the claim that it was simply a payment of a political debt, and that the money would be almost wasted, although the senators voted over a half million for a scenic drive for Seattle millionaires on the Olympic peninsula. When the bill went to conference the house proved the value of the proposed Cascade road and hung out for the full appropriation, and finally won out, the conference report allowing the full amount of $150,000 to be spent in the next two years in extending the road towards the summit of the Cascades.

The other appropriations for Skagit county are $50,000 for the rebuilding of the viaduct at Mount Vernon, and $50,000 for widening the Pacific highway between Mount Vernon and Burlington. The understanding in regard to the viaduct is that the new structure will be of concrete or other permanent construction, to cost about $150,000, of which the state appropriation will be one-third, the balance to be paid jointly by Skagit county and the city of Mount Vrnon. The present viaduct is a menace to public travel, and it is hoped that the new viaduct can be built this year.

The Pacific highway between Mt-Vernon and Burlington is too narrow for the amount of traffic it carries, and the widening of the road is badly needed. It is believed that this improvement will be included in the state budget for 1927 and the work done this year.

CONCRETE EAGLES WILL GREET EASTERN VISITOR

The Concrete aerie of Eagles is making big plans for the regular meeting on the night of Thursday, March 24, when James Tevlin of New London, Conn., will be present and will deliver a short talk to the members of the aerie. Mr. Tevlin is a prominent member of the national organization of the Eagles and is making a trip through the West. He is a fine talker and a good fellow, and every Eagle in Concrete and vicinity should turn out to meet him and hear what he has to say for the good of the order.

It is planned to initiate a class of members that evening in honor of Mr. Tevlin, and it is hoped that there will be a large bunch of candidates on hand. There are a few awaiting initiation now, and there is plenty of time to get many more before next Thursday.

In the contest started last month the Middleton team is leading the Kemmerich team by almost two to one. However, the contest still has several months to go, and the Kemmerich team refuses to concede defeat. As there will be a big feed at the expense of the losers at the close of the contest, it is likely that there will be some fighting for points from now on.

RESOLUTION

Before the Board of County Commissioners of Skagit County, Washington, in regular session assembled.

Whereas, it has been brought to the attention of the Board, by testimony of residents and taxpayers of Skagit county, that garbage, such as ashes, cinders, tin cans and other waste and other detoriorated substance has been promiscuously dumped and scattered on the county highways of Skagit county, Washington; and

Whereas, this practice is considered unhealthy, unsanitary and unsightly by the Board of County Commissioners; and

Whereas, the Board of County Commissioners feel that it is to the best interest of the county public health that this practice should be discontinued;

Now, therefore, be it resolved, and it is hereby ordered, that be county highways shall not be used for a common dumping ground for any or all kinds of refuse; and

Be it further ordered, that anyone violating this order shall be guilty of a misdemeanor against the county and are subject to arrest; and

Be it further ordered, that a reward of $25.00 shall be given to any person giving evidence from which arrest and conviction may be made; and

Be it further ordered, that the county auditor, as clerk of this Board, shall give notice to the public by publication in the various papers of the county of the contents of this resolution and order.

In testimony whereof, we hereby set our hands and official seal this 7th day of March, A. D. 1927.

GEO. B. REAY,
WALLACE SHARPE,
G. H. CLARK
Board of County Commissioners in and for the County of Skagit, State of Washington.

Attest: F. E. BERTRAND,
County Auditor and ex-officio Clerk of the Board of County Commissioners.

WASHINGTON COMPOSER TO VISIT IN CONCRETE

ALICE NADINE MORRISON
Washington's Gifted Song Writer

Dear to our hearts are the songs of this famous composer, who will appear in person at the Concrete theater Saturday and Sunday, March 19 and 20. Some of the songs that have made her internationally known are "Love's Ship," "Say You'll Be Mine," "Sweetheart Days," "Times" and "Sweet Anabel." Over a million copies of her songs have been sold all recording and piano roll companies have recorded her numbers.

Mrs. Morrison has often visited in Concrete and is well known to many people in Concrete and vicinity. She has recently returned from a five years' stay in San Francisco and is now located in Bellingham with her husband, Howell Morrison, a well-known musician and orchestra leader. When asked how she liked California she said that the state was very fine, but;

There's a land of golden splendor
Where the sun sinks low to rest;
It's the land of all my dreaming,
The state I love the best.

Washington, I love you,
You're the grandest state of all;
Your mountains, lakes and valleys
My very soul enthrall.

Your wooded hills and laughing rills
With mystic spell entrances;
While your golden sands and deep rich lands
Offer a million chances.

Washington, I love you,
And my song shall forever be
Washington forever,
Washington for me.

Concrete is the aristocrat of pavements

BREMERTON CHOOSES CONCRETE FOR CITY PAVING

The United States Government selected Bremerton, Washington, as the home of our Pacific Fleet for good reasons.

Bremerton has lived up to this distinction.

From its street paving up, this Puget Sound Navy Yard city is progressive. Miles of streets are concrete paved.

This modern pavement has cost almost nothing for upkeep. It is clean, attractive in appearance. Heavy trucks do not rut or mar the rigid surface. It is safe for traffic in all weather.

So Bremerton city officials have made concrete the standard type of paving for their streets. Property owners approve their choice.

All of the facts are in our free booklet on "Concrete Streets." Ask for your copy
