

FEATHERS

from the Duster

By The Overtime Editor

WE GET lots of reports on the temperature these days. They can range from near zero to "sure is warm compared to other places." We've been lucky, we suppose, to have such beautifully clear days even if the wind outdoors seems like a blast from a deep freeze.

As is customary in such weather most everybody stays home, nobody gets into trouble and news is scarce. Perhaps that is good, except that we have a newspaper to fill and without headlines or even bits of interesting town-talk it is difficult to put a paper together. This is one of those weeks.

THERE WERE a couple of big stories cooking for this week, but both are holding fire for the final actions that make them news. A sale of Johnson's Cafe is one. This type of news requires patience as there are many loose ends to be tied and retied before the proposals become actual fact.

NOT A BABY listed at the bottom of this column! The "Babies" headline has been running so long it just didn't seem right to lift it out this week. But then, what sensible baby would want to arrive in such a cold world. The February and March crowd at least have the hope of an early spring not far away.

OUR LITTLE surplus junk sale may have made people chuckle a bit, but they bought. Some say a humorous ad doesn't draw. We'd argue the point as the couple of classified ads we can have put us almost completely out of business as far as our stock of odds and ends of accumulated "things." The fever rubbed off on other ads, too. The electric stove was sold early this week for its owners. The place now looks like a print-shop again.

STEELHEADERS are something like Eskimos when it comes to cold weather. It's all right to stay indoors by the fire if the fish are not biting. If fishing is good, no weather is too cold. The past week has not been too exciting for the sportsmen, but still they try. The river is clear and low and fish are not in the mood. Yet on a day when the thermometer is down to a nubbin you'll see those fellows out in boats or on the river banks, casting until the line freezes in the guides, then dipping the pole in the river until the ice melts and flipping another cast. Like someone said, Steelheading isn't a sport, it's a disease. Makes men out of summer day trout anglers.

THE NEXT meeting for those in for those interested in forming a rifle and pistol club here will be on Tuesday, February 5th at the Eagles Hall. All persons, men or women, who would like to take up target shooting, are welcome to attend.

A few local marksmen went to Newhalem recently to try out the target range and reported that the up-river team was "impressed" by the early showing of skill by those who shot.

School Notes

The Freshmen, Sophomore, Junior and Senior class at C. H. S. are having a March of Dimes Drive. The classes are competing against each other to see which class can get the most money for the March of Dimes. The winning class will get to see a free movie towards the end of the year whereas the losing classes will have to pay to see this movie. All the classes are working real hard to win this contest.

The Juniors put on a dance after the game with Lake Stevens Friday night. The theme was "Blue Hawaii". The kids came in every day clothes and a good time was shared by all who attended.

The Seniors had charge of the concession stand Tuesday night during the game with Mount Baker. Coffee, snow cones, and candy bars are sold at these games in order for the different classes to raise money for their class.

School Lunches

Monday—Spanish rice with ham-burger, buttered spinach and apple sauce.

Tuesday—Pork and noodles, carrot sticks and cake.

Wednesday—Sliced pickles, vegetable stew, and pears.

Thursday—Chile, cheese and celery sticks, corn bread, and vanilla pudding.

Friday—Cook's choice.

Hunting Seasons Now At Tag End

Hunting seasons, believe it or not, are still in existence, but due for changes almost immediately. An either-sex elk season on the Elwha and Quinalt rivers, and in the Eatonville units closes today. Also closing is a bow hunter season in the Swafford Valley and Naneum elk areas.

There are bear seasons in several eastern Washington counties that will open March 1st and remain open until April 30th. All-year bear seasons include Clark county, Cowlitz, Island, Pacific, San Juan, Skamania, Thurston, Wahkiakum, parts of Pierce and Lewis, western Klickitat, Clallam, Jefferson, Kitsap, Mason and Grays Harbor counties.

Mink trapping closed January 13th, but muskrats can be trapped until March 14th. The seasons on marten, otter and lynx closed today.

Black brandt may be hunted until February 14th. Limit is three. Rabbits are legal game in all of western Washington until March 31st and in eastern counties until February 28th. There is no bag limit in Island, Snohomish, Skagit and Whatcom counties.

If you are tired of hunting and want to fish—try steelheading or await the opening of the trout season, which this year will be Sunday April 21st.

CLOSE RACE IN LADIES BOWLING LEAGUE

In the 19th week of bowling for the Upper Skagit Women's League Levaque Co held a one point lead over first-half winner Concrete Drug. Solomon's Standard Oil is close behind, followed by Hornbeck Bros., Van Horn Lumber, Albert's, the Drivettes and the Firehouse Four.

Mary George rolled last week's high series of 434 Gloria Hornbeck had the high game of 160. Concrete Drug had a 1641 top series but the highest team game went to Van Horn Lumber with 573.

Wants G. N. Railway Above Town of Concrete

Ken Cook of Mount Vernon was chosen and took over as the new president of the Skagit County Development Assn. at its regular meeting at Burlington last week.

During the meeting H. P. Scheel of Scheel Stone, Inc. who has large tale and silica holdings in the upper Skagit valley above Marblemount, was present to ask help in persuading the Great Northern Railway not to abandon their lines above Concrete. Mr. Scheel hopes that a loading facility for rail can be maintained above Concrete for such materials as silica, tale and other mining products.

The association agreed to set up a meeting with railway officials to discuss the problem.

Superior Shake Files For Incorporation Title

Superior Shake Co. of this city last week filed articles of incorporation with the secretary of state at Olympia. The firm will be capitalized at \$50,000. Members of the company listed are R. F. Drake, Alice Drake and Dale Drake, of this city and Raymond Drake of Arlington.

The Superior mill has been in operation here for a number of years and in addition to the manufacture of cedar shakes, they have also done logging and served as a broker for the small shake mills in this area.

GIRL SCOUT TRAINING

Mrs. Ray Arnold of this city, Girl Scout Council first vice-president, and Mrs. Harland Blankenship of Marblemount have been attending a five-day course in the program change in Girl Scouting at Burlington. The training of Girl Scout leaders by this group will be held in May. The work is being done to have the leaders ready for September of this year when 2½ million new handbooks and set of progress material will be given to the Girl Scout members.

HE HAS A GREAT BIG SHADOW

County Saves Bonding Interest

Tuesday at 11:00 a. m. in the office of the Skagit County Commissioners bids were opened on the sale of General Obligation Refunding Bonds. The Board elected to offer these bonds for sale with the idea of obtaining a more favorable net interest rate. Six bidders were present. The Bond sale was for \$359,000.00, the unpaid balance on Obligation Bonds sold to finance the North Fork Bridge and the Sauk Bridge. The sale was awarded to the National Bank of Commerce of Washington, Seattle, the net interest rate being 2.40702. This sale resulted in a net saving to the people of the county of a little over \$16,000.00.

Blood Mobile Unit

The Skagit County Blood Mobile Unit will be in the upper valley next week, and will be at Grange Hall at Birdview on Wednesday, February 6th to take donations from the Birdview Blood Pool.

Hours will be from 2:30 in the afternoon to 7:30 in the evening.

Forest Service Man To Survey Highway Impact

James C. Merritt, assistant in charge of Timber Management on the Darrington ranger district of the Mount Baker Forest, has been assigned to the Bellingham office. His new duties there will be to investigate and report on the impact that the North Cross State Highway and the possible future raising of Ross Dam will have on the National Forest resources in the area.

The Ross Lake-North Cross State Highway route is one of the most scenic areas in the entire United States and due to untouched natural resources the multiple use values are high.

Mr. Merritt has been stationed at Darrington since 1957.

Mrs. Ed Kenney Dies In South America

Belated word was received here last week of the death of Mrs. Ed Kenney, who passed away in South America Dec. 29th after a long illness. She was a former resident of Concrete and for many years Mr. Kenney was street maintenance man for the town. He was killed in a logging accident near Baker Lake about five years ago.

GIRL SCOUT CANDY SALESMEN READY TO GO

Blue Birds and Campfire Girls are practicing their best smiles for their local group treasurers and brushing up on their sales technique for this coming Saturday, Feb. 2nd, which marks the kick-off of the annual Candy Sale.

All the girls have a real stake in the sale, as they earn money for their local group treasurers and also finance improvements to the various camp programs during the summer.

This next year they hope to help Camp Kirby prepare for unit camping, a new type being planned for the first time here. This is including campers of all ages at the same period, but separating them into units with their own leaders.

Money going to the camp fund will provide for repair of the old

Ray Jordan To Talk At Historical Meeting

From Marblemount to Mount Vernon, Birdview to Bay View, Sauk to Samish, Rosario to Rockport, and from Alger to Anacortes, the news is going around that the inimitable story-teller Ray Jordan will be the speaker at the Tuesday, February 5th, quarterly meeting of the Skagit County Historical Society in Lewis Hall, Skagit Valley College.

Ray Jordan probably has the best background in Skagit County history of all persons in the county not only from personal experience but from careful research among the pioneers. He came to the Belleville community on the Cook Road as a small child and has spent most of his life in the Prairie or up-river areas, where he logged for years. He has written quite widely about the pioneers and their activities, searching out details concerning such characters as Blanket Bill Jarman of Jarman's Prairie. He and Martin Samson have been collaborating on a history of the Indians in Skagit County.

In the search for material Jordan has collected photographs from many places. In his collection he has the Indian alphabet deciphered to create a language understandable by all Northwest Indians. He will illustrate his talk with pictures from his collection.

All interested persons are welcome to attend the general meeting of the Society at 8:00 p.m. It is not necessary to be a member. Young people studying the history of the county will find valuable material in the talk.

The Sedro-Woolley area is preparing an exhibit of up-river historical materials for the Museum during the month of February. Persons who come to the meeting will be able to visit the Museum before the talk.

Lions Basketball Team Has Busy Week Of Play

The Concrete high school Lions entertained Lake Stevens last Friday evening on the local floor and lost the slow game 49 to 29. The Lions tried ball control, but it was too effective—they only scored two points in the first quarter and just four by half time. Lake Stevens led 17-4 at the half.

The second half was a bit more active, but Concrete could not get going long enough to narrow the lead.

In a non-league game with Meridian last Saturday evening Concrete lost 63 to 34.

Tuesday night, here the team had better luck against the Mount Baker Mountaineers, winning 48 to 40 in a game that the Lions led most of the way. It was not a conference game.

As a special feature for the evening during half time, two teams of grade schoolers performed in an eight-minute contest, the Purple Shirts winning 3 to 2.

Friday night Langley will be in Concrete for a league contest. The Lions are now in a tie with Sultan for cellar position, having won just one game. Lake Stevens is in first place, Monroe, second and Langley and Twin City tied for third.

Garden Club Style Show Set For April 3rd

Upper Skagit Garden Club has set the date of Wednesday, April 3rd, for their spring style show. Committees have been named and arrangements made with Vale's Apparel, who will sponsor it again.

Mrs. Jessie Wenrich, general chairman, announces that this year the show will be at 8:00 p.m. in the evening as a convenience to the many people who work and wish to attend.

Plans will be completed at the next regular meeting, which will be held at the Presbyterian Church basement, February 13th, with Mrs. David Coles and Mrs. George Day as hostesses.

FEDERAL SCHOOL FUNDS

The Diablo-Newhalem School district has been allocated \$5,793 by the federal government as a share of funds made available for school districts where a portion of pupils' parents work on federal lands or are employed by the federal government.

Many Contracts Set For Spring

Upon completion of examination of all bids, the Mount Baker National Forest is now about ready to spend a \$138,600 grant received from the accelerated public works program of the Area Redevelopment administration. The program is being used to step up the ten-year construction and improvement plan and will add some employment in both Whatcom and Skagit counties.

Projects now ready to go, and the low bidders on each, include: Anderson & Bustad, \$32,788 for construction of two residences and an oil house at the Baker River ranger station.

Associated Sand & Gravel Co., \$4,374 for surfacing of the Baker River ranger station road.

Washington Loggers of Bellingham, \$20,618.50 for construction of the Colonial Creek road on the Skagit district to connect with the North Cross State Highway.

Whatecom Builders Supply of Lynden, \$18,208 for construction of the Glacier ranger station water system.

Tim Rootman & Virgil Shanks of Marblemount, \$10,160.79 for construction of the Horseshoe Cove Camstround water system; \$7,676.82 for construction of the comfort station there; and \$7,967.93 for the construction of a water system for the Baker River ranger station.

Three-Way Race Only One For School Election

When the filings closed last Friday afternoon the school director election remained with a three-way contest for the Rockport area, but no opposition at Marblemount or Concrete.

Marblemount's candidate will be Harry Martin; Concrete's member for re-election is Marjorie Barber. At Rockport, however, there will be incumbent Lawrence Hornbeck, Ray Johnson, Jr. and Robert Whipple all seeking the post.

Mrs. Alice Dwyer was the only candidate filing for the position on the county school board.

CONTESTS AT NEWHALEM

For the Newhalem district, incumbents Mrs. Marianna Simms and Walter Harrison did not file again, but in their place two have signified candidacy for each post.

The new candidates are Mrs. Doris Menne, Mrs. Marjorie Giesbrecht, J. Marvin Klopstad and Laurence Stromme, Jr.

The election will be held on Tuesday, March 12th.

Rebekah Installation Is Event Of Past Week

The 1963 officers of the Rebekah lodge of this city were installed last Tuesday evening. The installing officer was Thelma Parker, representative, assisted by the Past Noble Grand Circle.

The officers installed were: Amelia Thomsen, Noble Grand; Beth Hicks, Vice Grand; Blanche Craft, NSNG; Margaret Thompson, LSNG; Angele Cupples, RSVG; Dorothy Soloman, LSVG; Neita Spargo, Color Bearer; Charlotte Bust, Warden; Ethel Theodoratus, Conductor; Thelma Parker, Chaplain; Helen Crinklaw, Musician; Nellie Whitehair, Inside Guard; Mabel Onkels, Outside Guard; Clara St. John, Rec. Secretary; Maude Hamm, Fin. Secretary; Mildred Crinklaw, Treasurer.

The Junior Past Noble Grand, Martha Presentin, was welcomed and introduced into the P. N. G. Circle. Following installation the members and guests retired to the dining room where a lovely lunch was served by hostesses Alta Ford, Lettie Schultz and Mabel Onkels.

A white cake, decorated with pink roses, was presented to Mr. and Mrs. Sam Theodoratus, newlyweds, who cut the first piece, after which the hostesses served the remainder of the guests.

The lodge room and tables were lovely with their bouquets of mixed flowers and roses arranged by Myrtle Shular. Over fifty members and guests attended the affair.

Almost everyone has a rosy plan for the future of our valley, at one end of the scale or another. Some are looking for an industrial boom that will bring homes, payroll, people, stores, traffic. Others would like to see the valley cashing in safely on its scenic beauty, lakes and streams, with the week-end population going home after a short stay. Still others would like to see no changes made at all, except maybe to drop back further into a primitive state to which no modern man would be welcome. Somewhere in between will come the ultimate goal. Our own idea is somewhere about in the middle. Enough employment to keep the valley in a prosperous state. Not enough development to bring crowding of our lands with 25-foot building lots and the never-ending problems of too many people. Progress is a hard taskmaster. All we can hope is that the monetary gains will offset losses of our freedoms.

Maybe the rules which govern the behavior of the public should be spelled out to the letter in laws that will cover everything from juvenile smoking to Sunday selling, but after taking a long look at the group in the House who can't even resolve their own behavior, we have doubts that this session of legislature is qualified to do the job.

We think the United States has made two mistakes on Cuba already and is on the brink of a third. The Bay of Pigs fiasco was a missed opportunity, the aborted invasion in the missile crisis would have made the eventual use of force less costly if it had come off. Now we are asked to believe that there is no further military build-up in Cuba while facts pile up to the contrary. An armed and belligerent enemy so close to American shores can not be so lightly excused, so often. Sooner or later the situation will have to be met with direct and final action. So far every mistake and compromise has only brought more contempt and further provocation. When do we call the halt?

It must have been wonderful before instant communication. You could enjoy weather as it came instead of following it in, play by play, before it came to where you were.

We read where Justice Douglas says the small town newspaper doesn't do enough "educating" of its readers. Something like dog training. First you gotta know more than the dog.

The Thrill That Comes Once in a Lifetime

A WEBSTER CLASSIC

TO BLOOD POOL MEMBERS
The Skagit County Blood Mobile Unit will be at the Grange Hall, Birdsvlew, Wednesday, Feb. 6, from 2:30 to 7:30 p. m.

All donors be ready to donate if called. This will be a convenient time for you to donate if you have been unable to do so in the past. You will be called first. All other drawings have been a success, so let's fall in line and make this one the same.

Also another year has gone by and the same old story, taxes and other first of the year bills. The same goes for our membership dues of 25c per member and the pool's due to the Skagit County Blood Council. We had our first donation of 25c per registered member last year. Some of you have failed to pay, so they can be paid at this time also. Some people pay as high as \$1 per member. Those that have co-operated—their dues & blood donations—feet that they have co-operated and should not have to carry the load for those

that do not co-operate. If it continues to be this way we will just have to do the same thing that other clubs do when dues are delinquent.

We must remember that we all have obligations to fulfill. All of us donate 25c per person unless otherwise stated. Those that can donate blood when called to do so if convenient for them. We never expect some one to donate if they have other obligations or are sick. To those who can not donate because of age or sickness they are always times like this drawing on the 6th when help can be used—donating coffee, tea, juices, cookies, cream and sugar. Many of the members gave extra for the Mobile Fund last year. To those go extra thanks.

There will be new pool identification cards this year. You may pick them up when dues are paid. There will be someone at the Hall on the 6th to collect dues and pass out new cards.

Let's Look at Christ As Both God—and Man!

The true Christian believes, of course, that Jesus was at one and the same time true man and the Son of God.

He holds this all-important conviction on the strength of proofs from the life of Our Lord . . . on the teachings of the Church from the time of the Apostles . . . on the powerful testimony of Holy Scripture. He is sure because God promised that the Word would be made flesh . . . "and the Word was made flesh."

But it is also true that many sincere Christians do not understand how important Christ's human nature was to His divine nature. Catholic teaching emphasizes this relationship, and we believe that a better understanding of it will enrich the spiritual life of every follower of Jesus Christ.

It was through His human nature that Our Lord entered the world of men and became not only our Savior, but our brother. It was the man Jesus who suffered and died for our sins . . . the human Jesus through Whom the graces of the Sacraments have been brought to us . . . the flesh-and-blood Jesus Who was the instrument of our salvation and is the one Mediator between God the Father and the family of man.

Today . . . as in the time of Our Lord Himself . . .

some people revere Jesus as a holy man. They regard Him as a prophet, an evangelist, a teacher—a martyr. But they insist that he was merely a human being . . . a son of Adam . . . a man of the same ancestry as all other men.

Catholics, and other Christians, too, agree that the ancestry of Our Lord was indeed of human nature as is our own. But we also believe that all that Jesus did as a man was motivated by the fact that He alone, of all the race of men, was the true Son of God—a divine Person—the instrument through which God brought understanding to sinful man.

From its beginning to its end, the New Testament deals not only with the divine but the human nature of Jesus Christ. These two natures must be understood in their proper relationship to one another, and to God's purpose and plan for the redemption of men.

FREE — A pamphlet entitled "The Word Was Made Flesh," which will be an inspiration and help to all who seek a better understanding of Jesus Christ, Son of God and son of man, and a richer understanding of joyful Christian life. Write today . . . ask for Pamphlet No. 58. It will be mailed in a plain wrapper. Nobody will call on you.

OLYMPIA REPORTER

By C. E. Johns

We have noted that some legislators have expressed the fear that the '63 Legislature, may authorize appropriations sufficient to meet the mounting costs of government, particularly in the field of education, but will not levy new taxes to balance the spending. This could mean just one thing—further deficit spending.

We can hardly believe this will happen. In the first place it would be irresponsible action. From a practical standpoint, Gov. Rosellini could not afford faced with a general fund deficit, to let it happen, especially if he is planning on running once more, and at the present rate of spending it is predicted the general fund will be in the red to the extent of \$40,000,000 at the end of the current fiscal biennium on June 30, 1963. That is more of a general deficit than Gov. Rosellini inherited from the previous governor when he took office in '57, despite the fact that new taxes have been levied by two legislatures in the interim to the extent of approximately \$150,000,000 in all.

To forestall such action he might do it by holding to the idea that he will not accept any appropriations that are not matched by realistic anticipated revenue.

If that did not work, he could do what former Gov. Arthur B. Langlie did at the close of the '51 Legislative session—veto the entire appropriation bill. That is very drastic action to take, but it is effective. When there are no appropriations, state government stops.

When Langlie vetoed appropriations, legislators were so mad they saw red. (No pun intended on the "red".) Both Democrats and Republicans were ready to revolt. They had been through a difficult and lengthy session, were tired out and wanted to go home. Cooler heads prevailed and what they did was recess over the weekend, while their leaders worked on a package of "nuisance" taxes sufficient to bring expenditures into balance. They also did some drastic cutting in appropriations, with special attention to some of the areas in which they knew Langlie was interested. But they ended by giving the governor a combination of appropriations and taxes that he could live with.

We do not think anyone wants new taxes from the '63 Legislature. The logical answer therefore would be to trim appropriations. That will be very painful. From a practical standpoint it could be done, but the great difficulty is that when any cut is made the legislators are subjected to terrific pressure from the services affected, as everyone wants reductions in principle, but wants the other fellow to take the cut.

The broad fiscal problem is that more money will have to be provided for education. It likely will not be all that is being asked but the increase will be substantial. Either other services will have to be cut back as much as

education goes up, or some new taxes will have to be provided. We have doubts whether this problem will be settled in the 60 days of the 38th regular session. It would be a safe bet we think, that a special session will follow. Instead of adjourning late in March, this Legislature might be with us into May or June.
