By The Over-time Editor

NAMING of Roger Jensen of the State Forestry crew to the Skagit County park board to replace Ed Clark, who now lives in Newhalem, puts a good man on the job, but again cuts the upper valley out of representation that should be given to this area. A large part of the county park board development will come naturally to this end of the county. Jensen, a well known and liked forester, will be expected to hold up our end for us.

The big rebuff, however, was in the statement that "no one in the upper valley was qualified" to hold the position open on the board. Ye gods! The people who sponsored, bought and developed the Dalles Lion's Club Park; the people at Rockport who also promoted their own town park; the old timers who worked and secured the Rockport State Park; who promoted the program of the many small camp grounds and rest areas of both state and forest service? The ladies who built and maintain a remarkably attractive Town Park in Concrete, and the Cascade Junior Women who are always drafting husbands to do their bidding for improvement and beautification of the valley?

Not qualified! We would suggest that somebody else is not qualified to make an appointment for lack of knowledge of the people who live here.

LAST WEDNESDAY we had a most enjoyable dinner and evening at the upper Baker, in the remodeled office building left there by Stone & Webster during construction. We had heard rumors of the work being done, so were a bit prepared for the huge stone fireplace and handsome "living room." The rest of the building is strictly utility. Seven bedrooms with mostly twin bed accommodations, conference rooms and space for serving a large group a meal.

What we learned first from old friend Puget Power executive Hal Forman, was that the building is no officer's club. It has been noted by the company that through natural retirement attrition over the next 5 years a large number of top men will be ending their service with the company. With that deadline in mind Puget Power has started a program of training the young

Hunting Season Open Saturday

The general fall hunting season for deer and game birds will open on Saturday, Oct. 15th for a month or more of hunting in split-seasons, extended seasons and controlled hunts. Another case where you can't tell the players without a program—and the 1966 Game Pamphlet is one of great complexity.

All that is certain is that the upper valley is due for an influx of hunters this week end. Most popular areas will be the Baker Lake district, the Nooksack, South Skagit and upper meadow country all around.

Pheasant are reported to be few in number in the valley this year, so deer will be the most sought after game.

For those who are still asking about our chart of last year which told how to estimate the live weight of a deer by chest girth, here it is again:

Girth	Live	Dressed

32	109	75

Church Filled For Dick Price Funeral Service

The Lutheran Church in Burlington was used last Thursday afternoon for the funeral service for Richard Price of this community, killed in a hunting accidental fall. The crowd was far to large for the funeral home chapel.

The service was conducted by Rev. Roy Olson of this community, a close friend of the deceased. Casket bearers were Don Atwell, Ron Kesselring, Don Ross, Frank Olson, Bert Williamson and J. R. Williamson. Honorary bearers were Paul Carroll, Jerry Hayes, Dr. W. G. Monzingo, Robert Lisle, George Nims.

Following the church services a graveside ceremony was held at the Burlington cemetery.

Almost every segment of the town was represented at the funeral. A majority of stores in town remaining open, closed for a time during the service hour.

Game Men Given Awards For Service

The state game department recently honored its veteran employees by presenting years of service awards. The department now has eighteen persons who have served thirty years or more.

One of the 30-year men is Ole Eide, district supervisor, who is a potential Van Horn resident, having purchased a lot at Thunderbird Lane. Among the 20-year men was Hank Moore of Anacortes, former valley game protector. Bill Hoffman, present game protector, of Birdsvie is a 10-year man.

Dr. Monzingo Heads New Hospital Board

The new hospital district was organized for operation last week with Dr. Wm. Monzingo of this city being named president for the coming year. Joe Fisher of Sedro-Woolley was chosen as secretary and Hugh Ridgway appointed on legal advisor.

A budget for the next year was tentatively set at \$1,212,250—that figure being adopted by the old combined board prior to passing their final resolution of consolidation.

A resolution by the new board appointed Chas. Lampson of the hospital administrator, subject to confirmation following audit of voting and other legal procedure in setting up the new district.

One of the first moves of the district was to set up a meeting with the Memorial board to try to work out some plan of operation for the old hospital. The meeting was held Tuesday evening this week.

Candidates Filed For New Rural Fire Dist.

The formation of Rural Fire Protection District No. 19, and Commissioners to operate it, is to be a part of the General Election to be held on November 8th in the upper valley. A special ballot will be issued to all voters in Rockport, Marblemount, and in the Baker precinct where some residents are covered by the district.

On the ballot as candidates for the three commissioners positions are Robert Whipple, Edward Johnson and C. Ernest Greene.

JOE WILLIAMS DIES AFTER LONG ILLNESS

Joseph Ralph Williams, 66, of this community, died at the United General Hospital last Friday, October 7th after a long illness. Joe, a well-known member of the upriver Indian residents, and made his home in Concrete since 1916. He worked as a logger until illness forced him to retire.

Joe Williams was born Aug.

28, 1900 at Blanchard, and lived in the county all of his life. He is survived by his wife, Susan; four sons, George of Los Angeles, Joe of San Francisco, Merle of Sedro-Woolley and John of Yakima; five daughters, Mrs. Lucille Bright, Lucella, Betty, Marilyn and Barbara Williams, all presently making their home in Sedro-Woolley.

There are nineteen grandchildren.

Funeral services were held on Tuesday from the Lemely Mortuary in Sedro-Woolley and interment was at the Hamilton Cemetery.

Hiker Killed By Falling Rock On Sauk Trail

Alcohol Problems Ass'n. was fatally injured when struck on the head by a falling rock on the steep and narrow Sauk trail.

The accident occurred about 4:00 in the afternoon as Hamara and his mother were making their way up the switch-back trail across the rock slide. Mr. and Mrs. Roger Miller of Mount Vernon had just passed them on the way down when the victim was knocked from the trail. He slid and rolled down about three switchbacks before stopping.

Another party, Mr. and Mrs. Rupert Smitt of Mount Vernon, making a hike to spend the night on the mountain, were also in the area. The women went for help and the two men reached the injured man, got him out to the end of the road and into a sleeping bag. He was still alive at the time.

On their way down the road the women met Mr. and Mrs. Chet Comstock, who had a logging first aid kit with them. They went to the scene, but found that the Smitts also had first aid equipment and had administered as best they could to the man's crushed head.

The group started down the mountain in a station wagon and met the ambulance on the way. The man was transferred to the ambulance and he was given artificial respiration all the way down by Butch French and Mr. Mercer, but he died on the way.

Lion Line Plays Well Toughest Game So Far

Charlie Messer, Matt Hilsinger, Les Gross, Larry Hoover, Ray Johnson, Cleve Messer and Mike Hill—Line regulars

By Larry Comstock

Although the Concrete Lions played pretty good football Friday night they ended up on the losing end by a score of 33-0. Concrete played pretty good ball considering Lake Stevens is rated No. 1 in the state, by many, in Class A division. They have now won their last 32 games in league play.

Lake Stevens scored five times, three on passes and two on the ground with the help of their fast running backs, all of which can run the 100 under

11 seconds. They scored once in the first quarter, three in the second and once in the third.

Good defensive play by the linemen Larry Hoover, Con Kelly, Rod Buchanan, Cleve Messer, Les Gross and Ray Johnson kept the Vikings from scoring in the last quarter. Defensive honors went to Brad Howell and Larry Hoover, each with eight tackles.

In the last quarter Concrete got its offense rolling on a reverse pass from Rob Gregory to Tyke Thompson for 45 yards.

Concrete then made it down to the Vikings 20 yard line and then gave it up to them on downs, with 3 seconds to go on the clock.

In another league game next Friday night Concrete plays Tolt at Tolt.

JUNIOR VARSITY WINS

With some measure of revenge, the Concrete Junior Varsity played the Lake Stevens B squad here Monday night and on 14 to 7.

Baskets of white and yellow mums and lighted tapers decorated the altar of the Midway Covenant Church, Des Moines, for the wedding of Miss Phyllis Halverson, daughter of Mr. and Mrs. Marvin Halverson, Des Moines, and Raymond Beazizo, Jr., son of Mrs. Chet Comstock, Concrete and Mr. Raymond Beazizo, Sr. of Concord, Oregon. Friday evening, September 30. Rev. Roy Lindquist officiated.

The bride wore an empire styled gown of white crepe. Sprays of lace enhanced the front of the skirt which flowed into a chapel train. A head piece of pearlized orange blossoms held her illusion veil. Her bridal bouquet was an arrangement of white rose buds and stephanotis on a white Bible.

The maid of honor, Susan Halverson, sister of the bride, wore a long empire styled gown of moss green harvest crepe with a scooped neck and elbow length ruffled sleeves. Moss green slippers, gloves and a matching headpiece bow completed the ensemble. She carried a single large yellow chrysanthemum.

The bridesmaids, Judy Clark of Mount Vernon, Mary Edlund of Seattle and Ann Larson of Spokane wore identical ensembles to that worn by the maid-of-honor. The flower girl's, Nancy Halverson, sister of the bride, ensemble matched the other attendants and her floor length gown was designed similar to the bride's gown. She carried a miniature bouquet of yellow chrysanthemums. The ring bearer was Douglas Halverson, cousin of the bride. The candles were lighted by Janice Halverson, sister of the bride, and Cheri Halverson, cousin of the

bride. They wore identical gowns of yellow harvest crepe.

For her daughter's wedding, Mrs. Halverson selected a gold and green blend sheath with jacket with a yellow carnation corsage. Mrs. Comstock's dress was a light blue brocade. Her corsage was tangerine carnations.

Wesley Jonson of Seattle served as best man ushers were Bruce Monrad, Keith Gardiner and Wayne Hicks, all of Concrete.

Mr. and Mrs. Noral Olson, uncle and aunt of the bride, were general host and hostess. Others assisting were Miss Verlene Nelson of Spokane and Mrs. Bill Parkins, Troy, Idaho, aunts of the bride. Bonnie Adamson, Seattle, Mrs. J. T. Faulkner of Anacortes, sister of the groom; Elaine Comstock of Concrete, step-sister of the groom, Janet Halverson, Judy Halverson, Mareda Halverson, cousins of the bride; Susan Sovold and Mrs. Vivian Mackinnon.

For her wedding trip to Oregon and California the bride selected a navy blue three piece knit suit with navy blue accessories. Her corsage was white rose buds.

They will make their home in Sedro-Woolley.

Civil Defense Meeting Draws Good Crowd

A well-attended Civilian Defense meeting here Monday night completed the organization for this area with Ed Pressentin of Rockport as co-ordinator and Magnus Miller of Van Horn as assistant.

All contrapieces are now filled and ready to serve in case of emergencies. During November another meeting will be held to set up a Search & Rescue Unit for this district as an active program for the group.

The session was conducted by County Co-ordinator Gus Dalzell with Mr. Van Horn and Mr. Robinson of the state department present to show slides and explain the duties of the organization.

men coming up so that they can step into the positions vacated. Upper Baker is to become a part-time college.

The various departments will hold two or three day seminars several times during the year. A bunk house is planned to add extra sleeping facilities as some of the department personnel to come under the program number up to fifty.

What we attended last week was an evening of lively discussion with the Puget Power ad and public relations men. These sharp young fellows are the ones who dream up the advertisements run in the newspapers and the TV commercials. In addition they write the brochures, moving picture scripts and the booklets which Joe Finden gives out to students who see the film on the development of electric power.

Joe was present to show the film, which was interesting to us for some beautiful color of both upper and lower Baker projects from the air and on the ground, the fish-taxi operation, and some quick shots featuring Gil Martin and Bill Gerrits in their regular jobs.

For the over-time editor, it was a chance to talk shop with men in our field. For wife Alice it was an opportunity to be the only woman at dinner in a group of young, handsome men. She had a good time, too.

This week we carry brief explanations of the various issues that will be on your ballot November 8th. Nobody expects you to understand them completely. The main idea is to acquaint you with the subjects and let you have a hand at government by ballot. What you believe may not be true, but only by believing and expressing that belief can your hopes and wishes be fulfilled. Not a few of the ideas offered have money tags attached. You, who pay the bills, at least are being consulted on where and how it will be spent.

Grief over loss of a good friend may be hard to express at the time. Even harder to put into any sort of words are the days when the sorrow is gone and you get down to really missing them.

The World Series may not have really been international, but what happened to the Dodgers shouldn't have happened to a Red Chinaman.

Tape recordings are now coming into common use as substitutes for the college lecturer. Here, if fully developed, is an avenue that promises much for future generations. What would it be worth today to hear Einstein, Longfellow, Edison, Marconi and other great minds explain their theories and express their thoughts in their own words? Students from now on will be able, at will, to hear from the greatest teachers in person and no posh college will be required as the price one must pay to learn at their feet.

The cry "whither are we drifting" has long been outmoded. We're lucky now to get a "look out" when the next blow strikes.

Our fall weather has been sort of bitter-sweet—we're partial to sunshine, need rain and have a hard time keeping each on the proper day.

The voters could more easily weigh the issues if only those adversely effected would keep their thumb off the scales.

CONCRETE

ORDINANCE NO. 176
AN ORDINANCE granting to DARRINGTON TV CABLE COMPANY, a partnership, a franchise to stretch wires and cables and appurtenant structures over and under the streets and alleys of the Town of Concrete and to maintain and use the same as a coaxial cable distribution system for television distribution to subscriber's residences and to business and public establishments;

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE TOWN OF CONCRETE:

Section 1. The Town of Concrete, hereinafter called the grantor, does hereby grant to Darrington TV Cable Company, a partnership, and to its heirs and assigns, the right, privilege and authority and franchise to operate in, over, upon and under the streets, alleys and public highways of the Town of Concrete and to stretch wires and cable on all streets and to erect antennas or other appurtenances thereon and to maintain and use the same as a coaxial cable subscription system for television signal distribution to subscribers' homes and to business establishments within the Town of Concrete.

Section 2. The construction authorized herein shall be done only in accordance with a plan or design submitted to and approved by the Town Council of the Town of Concrete.

Section 3. All poles, cables, wires, antennas or other appurtenances shall be constructed and erected in a workmanlike manner.

Nothing in this ordinance shall be construed to prevent the town from sewerage, planking, bridging, grading, altering or otherwise improving any of the streets of the town.

This ordinance shall further not be so construed as to deprive the town of any rights or privileges which it has now or which may be conferred upon it to regulate the use and control of streets. The town shall further have at all times the right to make use of the poles of said grantee for the wires, cables or conductors for any and all town owned wire systems provided that such use does not conflict with grantee's prior occupancy. Grantee may use the poles or facilities of other utilities, with the consent thereof.

Section 4. All construction hereby authorized shall conform to the requirements of the National Electric Safety Code of the State of Washington and the Town of Concrete.

Section 5. That the rights and privileges herein granted shall be deemed non exclusive and the right of the Town of Concrete to grant to any other persons, companies, corporations or associations similar rights shall not be restricted.

Section 6. Grantee shall within 30 days after the effective date of this Ordinance file with the Town Clerk written acceptance of this Franchise and the terms imposed. Grantee shall further at the same time file a good and sufficient bond in the penal sum of \$5,000.00 executed by a surety company authorized and qualified to do business in the State of Washington, conditioned upon the faithful performance of all duties and obligations to be performed by the grantee under the terms of this ordinance including the payment of all taxes imposed by the terms of this Ordinance and the removal of said system, said bond to be written for the term of one year and renewable annually.

Section 7. The said bond in section 6 referred to shall be filed within 30 days after the date of the passage and posting

of this Ordinance, and the furnishing thereof within such time shall be deemed full compliance with the terms of said Franchise.

Section 8. The grantee shall indemnify and save the town free and harmless from any liability, loss, cost, damage or expenses from accident or damage, either to itself or to persons or property of others which may occur by reason of the exercise of the rights and privileges herein granted, and shall repair all damage done to streets, alleys or other town structures by grantee. Prior to the start of actual construction grantee shall furnish and at all times maintain in force a policy of liability insurance with a company acceptable to the Town of Concrete, insuring the existence and operation of grantee's system for liability for death or bodily injury with minimum limits of \$100,000.00/\$300,000.00 and property damage of \$50,000.00, which policies (or copies or memorandums thereof) shall be kept on file at all times with the Clerk of the Town of Concrete.

Section 9. The grantee shall pay to the town of Concrete a tax in the amount of 2 per cent of the gross revenues received by grantee from its customers within the limits of the Town of Concrete. Said tax shall be paid by the grantee to the town of Concrete annually on or before the 15th day of February of each year for the preceding calendar year.

Section 10. Grantee shall have the right to charge and collect reasonable compensation from all persons and corporations to whom it shall furnish television reception.

Section 11. Grantee shall make its facilities available to all residents of the Town of Concrete for equal subscription rates regardless of the location of said residence within the city limits, provided that in the event of a location requiring the running of a cable for such a distance to serve one customer that the cost thereof to grantee may not reasonably be expected to be recovered within four years from charges to such customer, grantee may decline to serve such location.

Section 12. The rights and privileges hereby granted shall cease and terminate and this ordinance shall be of no further force and effect unless grantee complies with the provisions of Section 2 of this Ordinance and starts actual construction in accordance with said plan within 30 days from the effective date of this ordinance. The town reserves the general right to see that the system of the grantee is constructed and maintained in a safe condition, and if an unsafe condition is found to exist, to order the grantee to make necessary repairs and alterations forthwith, and if the grantee shall fail to make the necessary repairs, alterations, or removals the town may make them or have them made, and collect all cost and expenses thereof from the grantee.

Section 13. This franchise shall be freely assignable to any partnership or corporation in which the present partners, or their heirs, hold a majority ownership. It shall be assignable, with consent of the Town Council, to any person, firm or corporation. The rights, privileges and franchise herein granted shall cease and terminate ten years after the effective date of this ordinance. Should the grantee desire to terminate this franchise during the said ten year term it shall give to the Town of Concrete written notice of its intention to ter-

minate the franchise 12 months in advance of the termination date. Upon the termination of this franchise either at its expiration or upon notice given by the grantee, the grantee shall remove all wires, cables, antennas and appurtenances installed pursuant hereto within 90 days after the date of termination.

Section 14. In the event that grantee shall fail to operate or provide such coaxial television service or shall substantially default in any of the terms and conditions of this ordinance, the Town Council may direct that written notice be mailed to grantee, at Darrington, Washington, requiring that such service be resumed or other defaults cured within 60 days after the mailing of such notice. In the event grantee fails to timely comply with such notice, then the said franchise shall forthwith terminate, upon the Town Council mailing written notice thereof to grantee at Darrington, Washington; notwithstanding the foregoing, if grantee is prevented from complying by strike, fire, war, or act of God, grantee shall be excused from compliance for the duration thereof. Grantee shall forthwith remove all poles, cables, wires and appurtenances from the public ways of the Town of Concrete within 90 days after the termination of this franchise, and in the event of its failure to do so, the Town of Concrete may cause the same to be done at the expense of Grantee and the surety on its bond.

Section 15. All ordinances or parts of ordinances in conflict with this ordinance be and they hereby are appealed.

Section 16. If any provisions, or section, or part thereof, of this ordinance shall be adjudged to be invalid or unconstitutional, such adjudication shall not affect the validity of the ordinance as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.

Section 17. This ordinance shall take effect upon its passage and posting.

PASSED by the Town Council of the Town of Concrete at a regular meeting thereof held on the 3 day of October, 1966. Said ordinance having been first read on the 6th day of September, 1966.

"PICKED UP ALONG THE WAY"

—By PASTOR ROY OLSON

"Lord, teach us to number our days, that we may get us a heart of wisdom." I picked this up from the Bible. There are a great many bits of valuable advice to be found in the Bible. Have you looked lately?

All of which leads me to the conviction that if the goodness, and the love, and the mercy, and the patience of God does not suffice to make people give serious attention to spiritual matters, nothing else will. It was heart that drew the Son of God down to earth and it will be heart that will draw men back up to Him.

Just about every place in town, including the schools, closed on the day of the funeral and it might not be stretching the truth to say that on that day there were more Concrete people in church than on any one day for a long, long time. It brought to my mind the words of a certain news commentator who, following the untimely death of President Kennedy, made this observation, "Overnight the nation became a church." But it didn't stay that way very long, the statistics show.

Concrete Herald 6

Wednesday, October 12, 1966

I have lived long enough in the Christian ministry to learn that shock and fright induced by tragic events very soon wear off. And in a sense that may be just as well. Foxhole religion is a most deceiving thing. Did you perhaps at one time, in a moment of danger to life make some good resolutions you never kept?

Just this last week this community was shaken to its roots by the untimely death of one of our finest young men. Who would have thought that Dick Price's days were numbered?

Just about every place in town, including the schools, closed on the day of the funeral and it might not be stretching the truth to say that on that day there were more Concrete people in church than on any one day for a long, long time. It brought to my mind the words of a certain news commentator who, following the untimely death of President Kennedy, made this observation, "Overnight the nation became a church." **HOUSE JOINT
RESOLUTION**

Proposed Constitutional Amendment

Ballot Title as issued by the Attorney General:

RETired PERSONS PROPERTY TAX EXEMPTION

Shall Article VII of the state constitution be amended to authorize the legislature to grant relief from property taxes on real property owned and occupied as a residence by retired persons, subject to such restrictions and conditions as the legislature may establish, including but not limited to level of income and length of residence?

Vote cast by members of the 1965 Legislature on final passage:
SENATE: (49 members) Yeas, 34; Nays, 10; Absent or not voting, 5.
HOUSE: (99 members) Yeas, 83; Nays, 15; Absent or not voting, 1.

Explanatory comment issued by the Attorney General as required by law

The Law as it now exists:

Article VII, section 1 (Amendment 14) of the state constitution presently requires that all taxes shall be uniform upon the same class of property within the state or other taxing body. In addition, Article VII, section 2 (Amendment 17) of the state constitution, limiting the aggregate of all property tax levied by the state and all taxing districts without a vote of the people to forty mills on the dollar of assessed valuation, states that the assessed valuation of property shall be fifty per cent of the true and fair value of such property in money.

**Effect of House Joint Resolution
No. 7 if approved into Law:**

The proposed amendment would grant to our state legislature authority, notwithstanding these above-noted provisions, to grant relief from property tax on real property owned and occupied as a residence by retired persons. The legislature would be authorized to place such restrictions and conditions upon the granting of such relief as it deems proper. Such restrictions and conditions could include, among others, the limiting of the relief to those property owners below a specific level of income and those fulfilling certain minimum residential requirements.

Approval of this proposed amendment will specifically validate the provisions of chapter 168, Laws of 1965, Ex. Sess., which, subject to certain specific qualifications, will grant an exemption from the first fifty dollars of real property taxes to certain elderly heads of households having a total income (including income of a spouse) not in excess of three thousand dollars during the preceding calendar year.

SENATE JOINT 22 RESOLUTION

PART 2

Proposed Constitutional Amendment

Ballot Title as issued by the Attorney General:

INVESTMENT OF PERMANENT SCHOOL FUND

Shall Article XVI, section 5, (Amendment 1) of the state constitution, restricting investment of the state's permanent school fund to national, state, county, municipal or school district bonds, be amended by removing this restriction and thereby permitting the permanent school fund to be invested in such manner as may be authorized by act of the legislature?

Vote cast by members of the 1965 Legislature on final passage:
SENATE: (49 members) Yeas, 44; Nays, 1; Absent or not voting, 4.
HOUSE: (99 members) Yeas, 84; Nays, 8; Absent or not voting, 7.

Explanatory comment issued by the Attorney General as required by law

The Law as it now exists:

Article XVI, section 5 (Amendment 1) of the state constitution presently restricts the state in investing money in the state permanent school fund (derived from the proceeds of leases or sales of lands granted to the state by the federal government at the time of statehood for the support of public educational institutions) to investments in national, state, county, municipal or school district general obligation bonds.

Effect of Senate Joint Resolution No. 22—Part 2—if approved into Law:

The proposed constitutional amendment would eliminate this restriction. Additionally, it would expressly permit the permanent common school fund to be invested in such manner as may be authorized by act of the legislature.

PUBLICATION LAWS AUTHORIZING STATE DEBT

Shall Article VIII, section 3 of the state constitution, requiring the publication, in a newspaper in each county for three months prior to the election, of the text of any law to be voted upon by the people authorizing state debts, be amended so as to require only that notice of the law be published at least four times during the four weeks preceding the election in every legal newspaper in the state?

Vote cast by members of the 1965 Legislature on final passage:
SENATE: (49 members) Yeas, 45; Nays, 0; Absent or not voting, 4.
HOUSE: (99 members) Yeas, 93; Nays, 1; Absent or not voting, 5.

Attorney General as required by law*

The Law as it now exists:

Article VIII, section 3 of the state constitution presently requires the full text of any law to be voted upon by the people authorizing the contracting of state debts to be published in at least one newspaper in each county where a newspaper is published for three months immediately prior to the election at which the law is to be voted upon.

Effect of House Joint Resolution No. 39 if approved into Law:

This proposal would substitute for the above publication procedure a requirement that notice of submission to the people of a law authorizing the contracting of state debts be published in every legal newspaper in the state at least four times during the four weeks immediately preceding the election at which the law is to be voted upon.

Last Friday, October 7, this years sophomores ordered their class rings. The rings were ordered from the Herf Jones Company. Mr. Burt Durham of Bellevue represented the company in the selling of the rings. The ordered rings ranged in sizes but the style was the same for each ring. The cost of them ranged from \$18. to \$30 depending on the size, the size of the setting and the type of stone

inset. All in all, everyone was satisfied with his choice.

On Friday, October 7, there was a meeting for all those in Pep Club. The Pep Club uniforms were handed out to the members. The girls received purple poor-boy shirts and a dark gold colored material with which to make their own hip-hugger skirts. It looks like we're going to have a fashionably dressed Pep Club this year.

SUBSTITUTE HOUSE JOINT RESOLUTION 4

Proposed Constitutional Amendment

Ballot Title as issued by the Attorney General:

VOTER QUALIFICATIONS FOR PRESIDENTIAL ELECTIONS

Shall Article VI of the state constitution be amended to allow United States citizens meeting all constitutional qualifications for voting in the state, except for length of residence, to vote at a United States presidential election solely for presidential electors or for the office of president and vice president if they

- (1) Intend to make this state their permanent residence; and
- (2) Have resided in the state at least sixty days immediately preceding the particular presidential election?

Vote cast by members of the 1965 Legislature on final passage:
SENATE: (49 members) Yeas, 45; Nays, 2; Absent or not voting, 2.
HOUSE: (99 members) Yeas, 95; Nays, 0; Absent or not voting, 4.

*Explanatory comment issued by the
Attorney General as required by law*

The Law as it now exists:

Presently, under Article VI, section 1 of the state constitution, a person, in order to vote at any election conducted in this state, must

- (1) Be at least twenty-one years of age;
- (2) Be able to read and speak the English language;
- (3) Be a citizen of the United States; and
- (4) Have lived in the state for one year, in the county ninety days, and in the city, town, ward or precinct thirty days immediately preceding the election at which such person offers to vote.

Effect of Substitute House Joint Resolution No. 4 if approved into Law:

The proposed amendment would allow those persons who can meet all the above qualifications for voting except for residence and who shall have resided in this state at least sixty days immediately preceding a presidential election with the intention of making this state their permanent residence, to vote in such election for presidential electors, or for the offices of President and Vice-President of the United States, as the case may be, but for no others.

Ward Fulcher Honored California Students

Ward Fulcher, former member of the Concrete High School faculty, was given singular honors this past summer when he found that the East Bakersfield High School at which he teaches had dedicated their 1966 annual to him. The school has 3,000 pupils.

Ward, 41, teaches English and is head of that department for all Kern county schools.

In the dedication ceremony at an assembly, he was caught by surprise with the honor as he was called to the stage to receive the first copy of the book.

In a letter to his mother he wrote: "As you can undoubtedly guess, knowing me, I was pretty overwhelmed (melodramatic?). I did the right thing, not being able to speak. I kissed the girl editor, who burst into great tears. My kids were all crying, so were the lady teachers and counselors. . . . Suddenly, I felt myself to be an immense success and I would not have traded places with anyone in the world."

Mrs. Fulcher, a 75-year old widow, resides in Seattle.

SENATE JOINT RESOLUTION 25

Proposed Constitutional Amendment

Ballot Title as issued by the Attorney General:

PORT EXPENDITURES—INDUSTRIAL DEVELOPMENT—PROMOTION

Shall Article VIII of the state constitution be amended to declare that the use of public funds by port districts, in such manner as may be prescribed by the legislature, for industrial development or trade promotion and promotional hosting shall be deemed a public use for a public purpose and shall not be deemed an unconstitutional gift of public funds?

Vote cast by members of the 1965 Legislature on final passage:
SENATE (49 members) Yeas, 42; Nays, 6; Absent or not voting, 1.
HOUSE (99 members) Yeas, 89; Nays, 5; Absent or not voting, 5.

Explanatory comment issued by the Attorney General as required by law

The Law as it now exists:

Present state constitutional provisions prohibit the expenditure of public money for nonpublic purposes. In a recent decision the supreme court indicated that port districts could not expend funds for the purpose of acquiring and developing industrial sites for the use of or resale to private industry. In its decision the court stated that industrial development is not a public purpose.

Other state constitutional provisions prohibit the state and its political subdivisions from making gifts of public money or property to private individuals. The state supreme court has recently interpreted these provisions to mean that port districts in our state cannot expend public funds for a certain type of promotional or advertising activity known as promotional hosting. Promotional hosting in the case of port districts is generally understood to mean hosting individuals and groups of individuals at lunch or dinner for the purpose of cultivating trade relations and promoting business for the port.

Effect of Senate Joint Resolution No. 25 if approved into Law:

The proposed constitutional amendment would permit port districts to use public funds, in such manner as the legislature may specify, for both industrial development and trade promotion and promotional hosting.

SUBSTITUTE SENATE JOINT RESOLUTION 6

Proposed Constitutional Amendment

Ballot Title as issued by the Attorney General:

ELECTION OF SUPERIOR COURT JUDGES

Shall Article IV of the state constitution be amended to provide that where only one candidate has filed for a superior court judge position in a county of 100,000 or more inhabitants, or where after a contested primary in any county only one such candidate is entitled to appear on the general election ballot, certification of election shall issue to such candidate without a further election, unless a write-in campaign is to be conducted?

Vote cast by members of the 1965 Legislature on final passage:
SENATE (49 members) Yeas, 43; Nays, 1; Absent or not voting, 5.
HOUSE (99 members) Yeas, 91; Nays, 4; Absent or not voting, 4.

Explanatory comment issued by the Attorney General as required by law

The Law as it now exists:

The state constitution now requires that superior court judges be elected at the November state general election, when other state officers are elected. This is true even where only one candidate has filed for a superior court position, or where after a contested September primary election, held pursuant to statute, only one such candidate is entitled to appear on the November general election ballot because he has received a majority of the votes cast at the primary election for the particular judicial position.

Effect of Substitute Senate Joint Resolution No. 6 if approved into Law:

The proposed constitutional amendment would provide that (1) where only one candidate has filed for a superior court judge position in a county of 100,000 or more inhabitants, or (2) where after a contested primary in any county only one such candidate is entitled to appear on the general election ballot, certification of election shall issue to such candidate without a further election, unless a petition is filed within ten days after the date of the primary indicating that a write-in campaign is to be conducted.

SENATE JOINT 22
RESOLUTION

PART 1

Proposed Constitutional Amendment

Ballot Title as issued by the Attorney General:

ESTABLISHING COMMON SCHOOL CONSTRUCTION FUND

Shall Article IX, section 3, of the state constitution be amended to establish a common school construction fund to be used to finance common school construction, with funds to be derived from (1) certain proceeds from timber and other crops from school and state lands, (2) certain interest, rentals and revenues from the permanent common school fund and from lands devoted to the permanent common school fund, and (3) such other sources as the legislature may provide?

Vote cast by members of the 1965 Legislature on final passage:
SENATE: (49 members) Yeas, 44; Nays, 1; Absent or not voting, 4.
HOUSE: (99 members) Yeas, 84; Nays, 8; Absent or not voting, 7.

Explanatory comment issued by the Attorney General as required by law

The Law as it now exists:

Under the state constitution as adopted in 1889 there exists a fund known as the common school fund. The primary sources of this fund include money obtained (1) from the sale of lands and other property granted by the federal government to the state for the support of its common schools; and (2) from the sale of timber, stone, minerals or other property from those school or state lands which have not been granted to the state for some specific purpose.

The present constitutional provision declares that the principal of the fund shall remain permanent and irreducible. It permits interest accruing to the fund, as well as rental or other revenues derived from lands or other property devoted to the fund, to be used for current support of the common schools. However, neither the principal of this fund nor any of its income can presently be used to construct school buildings or other school facilities.

Effect of Senate Joint Resolution No. 22—Part 1—if approved into Law:

If this constitutional amendment is approved, the principal of the common school fund as the same existed on June 30, 1965, will remain permanent and irreducible. The fund will continue to receive money from all of its former sources except certain of them which will become sources of a new fund. This new fund will be known as the common school construction fund and will be available to be used for financing the construction of common school facilities. The sources of this new fund will be (1) the interest accruing on the permanent common school fund from and after July 1, 1967; (2) all rentals and other revenues obtained from and after July 1, 1967, from lands and other property presently devoted to the permanent common school fund; (3) certain proceeds from the sale or appropriation of timber and other crops from school and state lands subsequent to June 30, 1965; and (4) such other sources as the legislature may direct.

The proposed amendment further provides that the first of these four sources, the interest accruing on the permanent common school fund after July 1, 1967, may be used only to pay off such bond issues as may be authorized by the legislature for construction of common schools. The remainder of the new common school construction fund may be used for direct financing of common schools.

Lastly, the amendment provides that in the event there should be money in the common school construction fund in excess of amounts needed to fulfill its purpose, they shall be available for deposit in the permanent common school fund or for current use of the common schools as the legislature may direct.

SENATE JOINT 20

Proposed Constitutional Amendment

Ballot Title as issued by the Attorney General:

REMOVING LIMITATION ON LAND OWNERSHIP

Shall the limitation on the ownership of land in the State of Washington by certain non-citizens be removed by repealing section 33, Article II, as amended by Amendments 24 and 29 of the state constitution?

Vote cast by members of the 1965 Legislature on final passage:
SENATE: (49 members) Yeas, 42; Nays, 1; Absent or not voting, 6.
HOUSE: (99 members) Yeas, 94; Nays, 0; Absent or not voting, 5.

Explanatory comment issued by the Attorney General as required by law

The Law as it now exists:

There remains in our state constitution a limitation on landownership by certain noncitizens who have not made a declaration of intention to become citizens of the United States. However, the constitution presently permits some noncitizens (including nonresidents) to own land:

- (1) If acquired by inheritance, mortgage foreclosure, or in the ordinary course of justice in the collection of debts;
- (2) If acquired by a corporation;
- (3) If the land contains certain mineral deposits, or is necessary for mills and machinery to be used in developing those minerals and in manufacturing products from such minerals;
- (4) If the landowners are Canadian citizens of provinces which do not prohibit the ownership of provincial lands by citizens of Washington state.

Effect of Senate Joint Resolution No. 20 if approved into Law:

The passage of the proposed amendment would remove the remaining limitation on landownership by noncitizens.

Cascade River Park

The weather was beautiful and many were the activities at C.R.P. and a goodly number were out to enjoy it one way or another. This was a long week end for our British Columbia investors, as Monday was their Thanksgiving and several families spent the week end here at C.R.P. The McNivens had as guests their two daughters and families. The Cheesemans and daughter are still camping. They also brought up guests to look over the project. Mr. and Mrs. Ferguson, the Edens and son Dennis spent the long week end here doing various chores.

Others in for the regular week end were the J. C. Campbells relaxing and enjoying the beautiful fall weather. The Gordon Hunters and guests were exploring the project and showing it off. Several were clearing their property. They were The Foggs, the Stevens in Div. 2, the Armstrongs, the Lofings and Louise Christensen, the J. J. Campbells were inspecting their lot and enjoying the beautiful weather. The Olsens were seen camping and enjoying a picnic at C.R.P. The Slabaugh's were making arrangements for their driveway.

The Blaneys were checking the lot and are real happy to own property here. Its like coming back home. His father used to work in this area. The Soderquists were showing off their favorite spot to their family. The Harps spent the week end here and did some fishing. The Hamleys just couldn't stay away when the weather was so nice.

Also making plans for a shelter over his trailer. The Bretzs spent a most enjoyable week end, celebrating Walley's birthday. The Ashley cabin is making good progress, could almost dance on the new floor.

Chuck Wylie inspected his new furnace and was busy with land scaping in his yard, also recuperating from a bout with a cold. The Gates were camping on their favorite spot. The Nelsons had friends up and were showing off their hiking area.

During the many years here at the cabin, we have seen many planes and helicopters going to the Glacier and to the Cascade Pass to bring out the injured, but Wednesday evening the helicopter landed in the road above the cabin and visited us until Friday afternoon. Piloting the Boeing helicopter was Donald Johnson of Auburn, Keith Whiting, Geologist for the American Smelting and Refining Co. of Spokane, and Walter L. Gonnason of Medford, Oregon, Geologist for the Silver Queen. Time was spent on top of Red Mountain. Very interesting stories were told by the Pilot Donald Johnson as it had not been long since he flew helicopters in Viet Nam.

Joyce Cook of Conway, Mr. Green of Mount Vernon and Mr. and Mrs. Desson McGee of Toutle, Washington, were dinner guests here Thursday. Desson McGee and Rocky Wilson drilled at the Gorge Creek area for Lynch Bros. in 1918, so they had lots of news to catch up on.

Gary Jarson and Owen Harris of Kirkland spent the week end hunting goat up behind the mine, and reported they did not see any.

Sunday dinner guests here were Irene Gonnason and children, Eric, Kriste and Carla, and Walter Gonnason of Marysville. Additional callers in the afternoon were Mr. and Mrs. Wink Taylor of Kent, Mr. and Mrs. Thomas Christenson of Everett, Mr. and Mrs. Roger Myers of Marysville and Mr. and Mrs. Merle Mitchell of Mount Vernon.

CASCADE SOUTH FORK NEWS
By Lenora Wilson

When Rocky Wilson and his brother Jesse took the grizley into Yakima to the Taxidermist, he was very much surprised at the huge size of the pelt as he had just received two from Alaska, and this one was much larger in size, claws and the tusks. He could not believe it was gotten in Washington. This however was his first to mount in the state. It was judged the animal weighed between 550 to 600, and was about 4 or 5 years old. The meat was very tender and if blindfolded one would not know it from beef, but looking at it the meat is much darker than beef.
